DEFEATS
HOOVER IN
INDIANASecretary's Manager Con-
cedes Senator's Victory
—Majority 21,334—33
Delegates the Stake.ROBINSON WINS
RENOMINATIONLeads Giliom for Senator-
ship More Than 2 to 1—
Governorship Likely to
Be Left to Conventions.

By the Associated Press.
INDIANAPOLIS, May 9.—Ad-
mission defeat in the State pres-
idential primary yesterday Oscar
F. Poellinger, manager of Herbert
Hoover's campaign in Indiana, is-
sued a formal statement this after-
noon conceding Senator
Watson's victory and his own
defeat. Watson's name is dropped at the
Republican National Convention.

"From the viewpoint of actual
votes cast," Poellinger said, "Herbert
Hoover has been defeated,
but considering the fight he waged
against a man who has won a
majority of the votes, he has won a
moral victory. As opposition he
has not only one of the most pow-
erful political machines in the
United States but also the com-
bined strength of all other pres-
idential candidates. That he lost
by a small number of votes is a
tribute to his popularity as a man
and an American, a humanitarian and
an American."

"Hoover's candidacy, nationally,
cannot be stopped. That Indiana
has chosen to give Senator Wat-
son a favorite son, a slight edge
in this State means nothing except
a compliment to the Senator."

On the early returns last night
Hoover led with strong support in
Northern Indiana, but downstate
returns quickly wiped out his lead.
With all but 536 precincts reported,
Watson's majority over Hoover is
21,334.

Latest Returns.
Returns from 2074 of the State's
100 precincts give: Republican,
Watson, 178,674; Hoover 157,340.
Democratic: (1855 precincts),
Watson, 100,313; Hoover, 90,000.
Watson's lead was unopposed by
the Democratic presidential prefer-
ence.

Returns from 2578 of 3610 pre-
cincts for United States Senator
give: Republican, Arthur R. Rob-
inson (incumbent), 149,377; Solon
G. Carter, 16,992; Arthur L. Gil-
liam, 65,448.

Democratic: (2254 precincts), Al-
bert Stump, 92,964; Walter Myers,
13,542; L. William Curry, 16,343.

Figures on the senatorial con-
test are far from complete, but
were so inclusive of all districts
as to indicate that both Robinson
and Stump would have the re-
quired majorities.

Governorship Undecided.
The Republican and Democratic
committees for Governor in all prob-
ability will be selected by the con-
vention. The chances were slim
that any of the 10 Republicans
would poll a majority as required
by law. The same was true of the
Democratic contest.

Man among the Republican
candidates for the governorship
was Frederick E. Schuchman, Esq.,
attorney at law, 1643 pres-
ident. He had 55,860 and Fred-
erick 29,437. Earl H. Crawford
was third with 11,262.

Congressmen Renominated.
The renomination of 12 of Indi-
ana's 13 Representatives in Con-
gress is virtually assured. Six of
them—Greenwood, Canfield, John
Vestal, Albert R. Hall, John
Hickey—were renominated in their
districts. Overwhelming majorities
were given to Congressman Will R.
Wood, Fred S. Purnell, David Hogg
and Richard N. Elliott.

Rep. N. Updike of Indianapolis,
Republican, was engaged in a close
race with Archibald M. Hall for the
seventh district nomination. With
more than half the Marion County
precincts heard from Updike had
111 and Hall 641 votes. Louis
Updike, a Washington newspaper
representative, had a large lead for
a Democratic nomination.

Representatives Rowbottom and

SPIRIT OF ST. LOUIS
BEING PREPARED FOR
PLACE IN MUSEUMSmithsonian Officials Care-
fully Watch Dismantling of
Plane to Avoid Marring It.

By the Associated Press.
WASHINGTON, May 9.—The fu-
sage of Charles A. Lindbergh's
"Spirit of St. Louis" was rolled
out from under its wings today at
Bolling Field under the watchful
eye of three officials of the Smith-
sonian Institution, where it will be
taken Saturday for permanent ex-
hibition.

Before the ship was dismantled,
the chief mechanic conferred with
the institution representatives con-
cerning the manner in which it
should be suspended to afford the
best exhibition of the plane and to
insure its safety.

The Smithsonian is unwilling
that the "Spirit of St. Louis" be
marring in any way and will not
permit any holes to be bored in
the fabric unless permission is
first obtained from Lindbergh
himself. The plane will be dis-
mantled in the museum the first
American battle plane, powered
with the first Liberty motor. No
ceremony has been planned.

GETS TWO YEARS FOR
KILLING TWO WITH AUTOOscar L. Dickerson Pleads
Guilty to Manslaughter
Charge.

A plea of guilty was entered this
afternoon by Oscar L. Dickerson,
laborer, 1522 Hebert street, after a
jury had been selected in Circuit
Court to try him for manslaughter
in the deaths of two men last
Oct. 14 when the automobile in
which he was driving was struck
by a street car. Dickerson's car
was overturned, Judge Rutledge
sentenced him to two years in the
penitentiary.

A policeman halted Dickerson by
firing several shots after he started
to speed away from the accident at
Fourteenth and North Market
streets. Examined at City Hospi-
tal, he was pronounced drunk.

The victims were Edward Young,
17 years old, 5655 Hamilton avenue,
and Frank Swift, 40, 2210 North
Fourteenth street. They were rid-
ing in the rumble seat of an auto-
mobile driven by Paul Belzowski,
5302 Ellen avenue. The driver and
another man in the front seat es-
caped injury.

HENRY FORD DRIVES HORSE CAR
INTENDS TO ADD VEHICLE TO HIS
COLLECTION OF RELICS.

By the Associated Press.
NEW YORK, May 9.—Henry
Ford spent part of his first day in
the United States, after a three-
week visit to England, driving an
old-time horse car in Brooklyn.

Soon after departing Ford, ac-
companied by his son, Edsel, drove
to Brooklyn and drove the old
horse car which he plans to add to
his collection of relics of bygone
times, in the belief that it is the
oldest remaining vehicle of its
kind.

HOOVER RESENTS
QUESTIONS ASKED
IN FUND INQUIRYWonders "if Senators Are
Not Getting Down to
Pretty Low Type of
Street Slander."PHONE CALLS ONLY
EXPENSE IN RACERefers Committee to
Friends on Cost of Cam-
paign; Hays "Has Prac-
tically No Part."

By the Associated Press.
WASHINGTON, May 9.—Herbert
Hoover underwent a search-
ing examination today at the hands
of the Senate Campaign Funds
Committee, testifying that his per-
sonal expenditures might total
\$200,000 and telling his interrogators
at one time he wondered if they
were not dealing in a "pretty low
type of street slander."

The Secretary of Commerce and
Republican presidential candidate
said friends had his campaign in
hand, and that the money he had
spent personally was largely for
telephone calls. He said he had
made no promises of patronage in
the event of his election.

There was a flare-up when Sen-
ator Barkley (Dem.), Kentucky,
asked if Hoover had recommended
that the price of chinaware be in-
creased 15 per cent. This brought
an emphatic disclaimer from Ho-
over, with the added remark that "I
wonder if the gentlemen of the
committee are not getting down to
dealing in a pretty low type of
street slander."

Barkley said the question had
been suggested from a responsible
source, and Chairman Steiwer ex-
plained that it had been reported
that the china manufacturers had
contributed to Hoover's campaign,
and that, therefore, he had per-
mitted the question to be asked.

No Family Contributions.
Hoover said that neither he nor
any of his relatives had made any
campaign contributions, referring
the committee to other persons for
information as to contributors. He
had in mind no substantial contribu-
tions from anyone he said.

The Secretary said one of the
questions considered when he en-
tered the West Virginia primary
was his chance to get second choice
delegates. He agreed that he had
discussed the matter with a Sen-
ator, asked if he was willing to
pledge the Senator's name, the Sec-
retary said he would consider it
finally saying that he wanted ad-
vice before making it known, and
adding that he did not see any ob-
ject in the question.

"I don't think that question
should be pressed at this time,"
Hoover said, adding that he had
told the committee he would co-
operate with it fully.

"Rather Minor Details."
Toward the end of the examina-
tion Senator Dale (Rep.), Vermont,
suggested that the Secretary seem-
ingly resented of the proceed-
ings of this committee. Hoover
replied that there was no reason
for that, but that he felt "the com-
mittee was going in for rather mi-
nor details which I think it could
get from the men who are conduct-
ing this movement for me among
the American people."

He testified that John T. Adams
of Iowa, former chairman of the
Republican National Committee,
had had no part whatever in his
campaign. He added that if George
B. Lockwood of Muncie, Ind., was
getting a salary of \$18,000 a year,
he knew nothing of it, declaring
that Lockwood was a volunteer in
his organization.

Hoover told the committee an
announcement from New York that
he would use the movies and radio
extensively if nominated was un-
authorized and that he had in-
structed that it be recalled.

Testifying under oath, Hoover
said his friends made a campaign
for him in a number of states, in
10 of which primaries were called
for.

James W. Good, a former mem-
ber of the House from Iowa, has
charge of the Hoover national or-
ganization, the witness said, and
Lockwood, former secretary of the
Republican National Committee,
was connected with it.

"You said you were entered in 10
primary states," Chairman Steiwer
said. "Those included Ohio and In-
diana?" "Yes, sir. Campaigns were
made there." There was an oppo-
sition in California and Oregon, he
said.

"Are you able to give us the
amount of money expended for you
in Indiana?" Steiwer then asked.
"No, sir. That is entirely in the
hands of the Indiana managers,"
was the reply. "Oscar Poellinger
can give you that information."

\$18,000,000 DEBT
LEFT BY ARMOUR
SETTLED IN FULLWidow and Daughter Give
Up Estate and \$1,500,-
000 of Personal Fortune
to Pay Claims.FAMILY SURRENDERS
\$2,500,000 FARMMrs. J. Ogden Armour
Took Every Possible Step
to Satisfy Husband's
Creditors, Says Attorney.

By the Associated Press.
CHICAGO, May 9.—Claims
against the estate of the late J.
Ogden Armour, Chicago packer,
who once said he had lost \$1,000,-
000 a day for more than 100 days
during the World War, have been
settled in full.

His debt to Armour & Co., Chi-
cago packers, and claims of bond-
holders of the Sutter Basin Co., a
California land reclamation project,
were wiped off the books last night
in a transaction which involved
cash and bonds to the value of ap-
proximately \$18,000,000.

"The books have been wiped
clean and everyone treated just-
ly," said Alexander F. Reinhold,
attorney for Mrs. Armour.
"Mrs. Armour has taken every pos-
sible step to see to it that her hus-
band's debts were settled to the
satisfaction of all his creditors."

"Settlement of the remaining in-
debtedness of J. Ogden Armour to
Armour & Co. was completed in a
manner satisfactory to the com-
pany."

The terms of settlement includ-
ed surrender of the Melody Farm
Estate, for years the pride of the
family. Its valuation was placed
at \$2,500,000.

In addition, Mrs. Armour waived
claim to \$6,000,000 of land war-
rants held against the Sutter Basin
Co. She and her daughter gave
more than \$1,500,000 of their per-
sonal fortune to complete the set-
tlement.

Liquidation of the debt to Ar-
mour & Co. packers, was made
through the transfer of securities
that Armour and his relatives had
pledged. At one time this debt
was said to exceed \$50,000,000. It
was incurred by Armour in pro-
moting various enterprises.

II WAITRESSES MADE ILL
BY HOTEL FUMIGATION GASTwo Girls Taken from Speck
Confectionery, 414 Market, in
Serious Condition.

The Speck Confectionery, 414
Market street, was closed at 2 p.
today after eleven waitresses
and girl employees affected by hy-
drocyanic acid gas used in fumigat-
ing the rooms of the Grace Hotel
above the confectionery and re-
staurant, had been taken to City
Hospital, 17 years old, 6255
Davison avenue, and Miss Marie
Funtmann, 17, 515 Kansas street,
were in a serious condition. Two
others were taken to Josephine
Hospital. They are Miss Florence
Spengel, Melville, Mo., and Mrs.
Bertha Becker, 2514 Sulphur ave-
nue. The others were sent home
after treatment.

The fumes permeated the res-
taurant shortly before noon after
a crock containing the acid broke
in a room above. The volatile acid
seeped through the roof, according
to William Barrie, manager of the
Guaranteed Insect Exterminator
Co., 309 North Nineteenth street,
in charge of the fumigation.

Customers in the restaurant dur-
ing the lunch period complained
of the fumes but none was seri-
ously affected. The fumes also en-
tered the cigar store of Jacob
Lambert at 412 Market street.

TRIES TO ROW ACROSS OCEAN;
IS PICKED UP EXHAUSTED

By the Associated Press.
LISBON, Portugal, May 9.—Ad-
vice from Las Palmas, Canary Is-
lands, says that Capt. Franz Romer,
German steamship officer who was
being tried to row across the At-
lantic in a small boat, was picked
up completely exhausted by fish-
ermen off Las Palmas.

Romer, 29 years old, left Lisbon
March 21 in a 20-foot boat and was
forced by bad weather to halt at
Sargass, the most southeasterly
point of Europe, until April 23,
when he resumed his trip.

His craft is canvas and rubber
covered and he planned to row
about 37 miles each night.

Las Palmas is approximately 650
miles south of Sargass, indicating
that Romer was driven far off his
course.

Olive St. Open All Way Tomorrow.
The south side of widened Olive
street, now open for traffic as far
east as Eleventh street, will be
open tomorrow all the way to
Twelfth boulevard. Work has al-
ready begun on the paving of the
streets.

\$30,000 FUND TO BE
GIVEN TEACHER
RETIRING AT 71West Chicago to Contribute to
Gift to Be Presented
to Miss Roundy.

By the Associated Press.
CHICAGO, May 9.—Miss Carrie
Roundy, 71 years old, a teacher in
a Little West Chicago school for 50
years, today planned to retire, on
June 8, to continue her education.
"I'm retiring as a teacher," she
said, "but I'm going to take a course
of study and retreat to the foun-
tain of youth that is to be found in
education."

The entire suburb will contribute
to a fund of \$30,000 to be pre-
sented to her at a public celebration
in honor of her life-long service to
the community.

Children today, Miss Roundy
thinks, are no different from what
they were 50 years old. The school
boy is more eager than ever to
learn, she said.

CONGRESS COMPLETES WORK
ON FLOOD CONTROL MEASUREBill Ready for White House, Ex-
cept for Officers' Signatures;
Coolidge's Approval Expected.

By the Associated Press.
WASHINGTON, May 9.—Con-
gressional action was completed to-
day on the Mississippi flood control
bill, and it was made ready for the
White House, where indications are
that President Coolidge will ap-
prove it. The conference report was
adopted without a record vote.

Legislation was finished when
the Senate approved the report of
the House-Senate conferees. Pre-
viously the House had acted favor-
ably on the report, which adjusted
differences between the two
Houses and included some changes
requested by the President.

Earlier it was disclosed that
while the bill does not conform ex-
actly to Mr. Coolidge's views, he
feels it is the best that can be
obtained from Congress.

All that is necessary before the
bill can be sent to the White House
is to have it engrossed and signed
by the presiding officers of House
and Senate. Under ordinary cir-
cumstances it would reach Mr.
Coolidge tomorrow or Friday.

BOY FINDS SISTER HANGED
AND FATHER SHOT TO DEATHNeighbors of Nebraska Family Say
That Girl Hanged Near Over-
look, Killed "Date."

By the Associated Press.
OMAHA, Neb., May 9.—Running
to a field to tell his father that he
had found the body of his sister
Mary, 17 years old, hanging from
a tree, Edward Vankat, 15, stum-
bled upon the body of the father,
Frank Vankat, 50, on his farm at
Irvington, near here, today. Van-
kat had been shot to death. Au-
thorities advanced a theory that
the daughter hanged herself and
her father killed himself when he
saw his daughter's body, or vice
versa.

Vankat's shotgun lay close to his
body.

Neighbors said there had been a
quarrel at the farm last night over
a girl, keeping a "date." Her
father had forbidden her to go, re-
questing her to care for the younger
children. She disobeyed, neighbors
said.

ENDURANCE FLYER KILLED
WITH MECHANIC IN CRASHPlane of Lieut. Royal V. Thomas
Suddenly Goes Into Dive Over
Moonachie, N. J.

By the Associated Press.
HASBROUCK, N. J., May 9.—Lieut. Royal V. Thomas,
who recently tried for an endur-
ance record in the Bellanca mono-
plane, Reliance, and Vaughn
Weatherly, a mechanic, were killed
today when the plane
crashed over Moonachie, just north-
west of here.

Thomas' plane had been at the
Teterboro Service Field for two or
three days, undergoing overhauling
in preparation for another endur-
ance record attempt.

Word of the crash was tele-
phoned to the field by George
Brankorff, superintendent of the
New York Cemetery at Moonachie,
who said the plane was flying over
the town at high speed, and sud-
denly went into a dive.

RICHMOND HEIGHTS ANNEXES
LAND, ONLY 80 PERSONS VOTING

Sparsely Settled Section Added But
Hardly Anybody Knew Elec-
tion Was Being Held.

Richmond Heights voters learned
of their surprise today that there
was an election in their St. Louis
County community yesterday and
that its territory had been in-
creased by one square mile as a
result.

Whereas Richmond Heights elec-
tions usually are attended with
much ballyhoo and stir and bring
out from 2500 to 3000 voters, the
voting yesterday went on virtually
unnoticed, and the election was de-
clared by a mere handful of votes—
73 for and 1 against the annexa-
tion, according to the figures of
City Clerk Skillman.

The territory annexed, sparsely
built up, is bounded by Clayton
road on the north, Lay road on the
west, Eager road on the south and
west. Eager road on the south and
west.

CARMEN VOTE TO AUTHORIZE
LEADERS TO CALL STRIKEFRANKLIN MILLER
TO MAKE RACE FOR
CIRCUIT ATTORNEYFormer Judge Announces
He Will File for Demo-
cratic Nomination as Re-
quested by His Friends.STRONG CANDIDATE
AGAINST SIDENERPledges Honest Administra-
tion and Best Efforts to
Enforce Law Without
Fear or Favor.

Former Circuit Judge Franklin
Miller announced today he would
make the race for Circuit Attorney
on the Democratic ticket. His de-
cision came in response to a call
issued last week by 53 prominent
St. Louis Democrats.

Miller was selected as the strong-
est available Democrat to defeat
Circuit Attorney Sidener, who filed
today for re-election. The fight on
Sidener, now that Judge Miller has
declared, will begin in earnest with
every effort being made by Miller's
supporters to line up a solid Demo-
cratic and independent vote for him
in the primary with help from dis-
contented Republicans.

It is generally conceded that if
Miller can get the Democratic nom-
ination he will stand an excellent
chance of beating Sidener in the
general election. When Miller was
elected Circuit Judge in 1920 he
polled the highest Democratic vote
ever given a candidate in St. Louis.

Included among his list of spon-
sors are a former United States
Senator, a former Governor, a for-
mer Mayor, 11 former Circuit
Judges, and three former nominees
for Mayor.

FOR CLEAN, HONEST ADMINISTRATION

In announcing his decision to run
Miller said:

"After carefully considering all
elements of the situation, I have
decided to respond to the call
presented to me last week by for-
mer Judge Daniel G. Taylor and the
52 other citizens who signed the
call, and will file my declination
as a candidate on the Demo-
cratic ticket, for the office of
Circuit Attorney. If nominated
and elected, I pledge to the peo-
ple of St. Louis a clean and hon-
est administration of the office
and my best efforts to secure for
our community the active and
vigorous enforcement of the law,
to the best of my ability and
without fear or favor."

Plan of Campaign Outlined.
Former Judge Taylor, speaking
as one of the sponsors of Miller,
outlined briefly the plan of cam-
paign.

"We will organize a committee
from among the sponsors and start
a vigorous campaign. It is gen-
erally conceded that Judge Miller
can beat Mr. Sidener in the elec-
tion. We feel that the primary
fight will be the decisive one. I
do not favor asking any other
candidate to withdraw. Judge
Miller will run on his own merits
and does not need pressure of any
sort on other candidates. Of
course his merits will be present-
ed to members of the Democratic
City Committee. It will be demon-
strated that Judge Miller is the
strongest candidate the Democrats
could name to run in the general
election."

Thus far two candidates have
filed on the Democratic ticket and
two on the Republican ticket for
Circuit Attorney. Besides Judge
Miller, Tom Rowe Jr. is a candi-
date on the Democratic ticket, and
Edward Rudolph, a former Assis-
tant Circuit Attorney, has filed on
the Republican ticket against Sid-
ener.

SIDENER BIDDING FOR SUPPORT

Sidener under the tutelage of
G. O. P. bosses, already has en-
deavored to ingratiate himself with
party leaders. His first act to
this end was to discharge William
Geist, his chief clerk (Geist says
he quit) and his second move was
to address a long letter to the Bar
Association complaining of news-
paper criticism and defending his
course in office. As the campaign
grows hotter Sidener will have to
face a reopening of the circum-
stances about the Rutherford mur-
der case settlement, his failure to
convict anyone in the Ferguson
McKinney Dry Goods Co. crash
the failure of the Mottlow pres-
entation and a host of lesser fail-
ures.

—By a Post-Dispatch Staff Photographer.
M. J. DOUGLAS
President of Street Car Men's LocalDECLARES 'OTHER MAN'
SENT NOTE OF THANKSHarold Whitney, Testifies in Di-
vorce Suit Naming U. S. At-
tache as Wife's Friend.

Special to the Post-Dispatch.
LACONIA, N. H., May 9.—Law-
rence Higgins, attaché of the
American embassy in Mexico City,
on Dec. 17, 1927, three weeks after
he had been found in the apart-
ment of Mrs. Frances Clarke Whit-
ney by Harold G. Whitney, her
husband, and two detectives, sent
a note to Whitney from Washing-
ton, written on his own official
card. Whitney testified yesterday
in his divorce action against his
wife.

The message was: "Thanks for
the buggy ride." The inscription
on the card was "Lawrence Hig-
gins, foreign service officer of the
United States of America, State
Department."

The evidence had been intro-
duced that Mrs. Whitney and Hig-
gins had had an affair since April
19, 1922, and had exchanged mes-
sages commemorating the day
every year, several of these mes-
sages being in Higgins' handwrit-
ing on his calling or official cards.

Whitney testified, however, that
his first suspicion of his wife came
on day last September when his
5-year-old daughter, Pamela, said,
"Daddy, I like Uncle Laurie and
Mama better than I do you."

He began an investigation which
culminated in the raid on her
apartment and the action now be-
ing tried.

Whitney testified that his in-
come, inherited from an uncle,
was approximately \$15,000 a year
and that he was given nothing by
his wealthy father, who died last year.

Photographs were introduced
showing Whitney at Palm Beach
and at his summer place on Pine
Island in Waukegan Lake with
Mrs. Lawrence Copley Thaw in
some and other women in others.
In some of the pictures the posers
were drinking.

Whitney denied he had ever had
improper relations with any of the
women mentioned by his wife, but
admitted indiscretions with two
unnamed women since his mar-
riage and that his wife had con-
doned his offenses, begging him
to return to live with her.

KILLED TOLLING DEATH KNELL

Bell Ringer Hit by Clapper and
Hurled from 300-Foot Tower.

By the Associated Press.
PRESSBURG, Czechoslovakia,
May 9.—While peeling the death
knell for a fellow citizen, the sex-
ton of Raba approached too close
to the clapper of the monster bell.
He was struck on the head and
hurled from the 300-foot tower, be-
ing instantly killed.

Two Anglers Die of Excitement

By the Associated Press.
PORTLAND, Ore., May 9.—
Deaths of two Oregon fishermen
have been charged to excitement
incident to hooking a large fish.
David W. Middleton, 60 years old,
fell dead yesterday in a boat as he
was about to land a large salmon
after a hard fight. He was fishing
in the Willamette River near Ore-
gon City. Another fisherman died
under similar circumstances two
weeks ago.

200,000 STUDY UTILITIES BOOK IN OHIO SCHOOLS

Fred Bollmeyer, Publicity Director, Tells Trade Commission of "Aladdin of Industry."

\$3000 PAID AUTHOR OF ANOTHER WORK

That Was S. S. Weyer's Attack on Municipal Ownership Issued by Smithsonian Institution.

BY PAUL Y. ANDERSON, A Staff Correspondent of the Post-Dispatch.

WASHINGTON, May 8.—More than 200,000 high school students in Ohio are studying a text book which was prepared by the propaganda money of the public utility companies. It was disclosed today during the Federal Trade Commission's investigation of the electric power industry. The book was introduced into the schools after the utility companies had decided that some of the text books in use contained material which was "objectionable" to them.

It also was revealed that Samuel S. Weyer, who wrote an attack upon the publicly owned super-power system of Ontario, Canada, and caused it to be issued by the Smithsonian Institution, was at that time in the pay of the National Electric Light Association, which had contracted to give him \$3000 for preparing attacks upon public ownership of public utilities.

Working the Newspapers. The methods employed by the public utilities of Ohio to disseminate their propaganda through the newspapers also formed the subject of interesting disclosures today. There was introduced in evidence a pamphlet in which the utility propaganda agency boasted that during the last year 425 newspapers in Ohio used news stories furnished them by that agency, and in many instances published editorials based on the statements contained in them.

The propaganda of the Ohio utilities was directed against the idea of municipal ownership. It was issued through the Ohio Committee on Public Utility Information, of which Fred Bollmeyer was the director. Bollmeyer was the principal witness this morning and said that the most important admissions came from him. He was contained in documents produced by him under subpoena.

"Aladdin of Industry" is the name of the book prepared by the committee for use in the Ohio public schools, and Bollmeyer testified that 150,000 copies had been placed in the schools. While the book appears to contain much unbiased technical information about gas and electricity, telephone and street car systems, it is interlarded with passages praising the present conduct of the public utilities, and crediting them with a progressive part in the development of modern communities.

Concerning their profits, one paragraph read: "Under the prevailing system of regulation, the utilities make no profits as other business does. They are allowed only to charge rates which will permit the earning of operating expenses, plus a fair return on the money invested in properties."

The book also emphasized the fact of "customer ownership"—generally considered as the surest safeguard against campaigns for municipal ownership—stating that in the last year alone 1,500,000 customers had bought stock in public utility companies.

The records produced by Bollmeyer showed that numerous school superintendents and high school principals in Ohio had written for copies of the book for use in the schools, and had acknowledged receipt of "copies" in varying numbers. Some praised it lavishly, and told of the uses to which they had put it. Classes in civics, economics, science and even English, are using it.

Bollmeyer's committee made elaborate efforts to obtain favorable publicity in the newspapers of Ohio, and apparently succeeded on a remarkable scale. One statement which it issued said: "Six hundred and twenty-five Ohio newspapers have printed news stories prepared by the committee in the last year" and again: "It is gratifying to the committee that many editors accept its news service as the basis of editorial comment."

The committee specialized in "feature stories," which were prepared by its writers, and sent out to the newspapers in the form of "mats," accompanied by pictures. Thus, it boasted that 41 Ohio newspapers used a committee story describing the progressiveness of the interurban railways. 23 published one which told how long-distance telephone service was being speeded up; 65 used a committee blurb relating that the interconnection of the big power plants had assured customers of uninterrupted 24-hour service.

Bollmeyer testified that during 1933 the committee obtained more than 20,000 columns of free space in the newspapers of Ohio, and more than 1500 editorials, many

DIES SUDDENLY

MRS. ANNA HAID.
DIES WHEN ABOUT TO SPEAK

Wife of Former City Counselor Suffers Heart Attack at Meeting of Blind Girls' Home Directors.

Mrs. Anna Haid, 61 years old, wife of former City Counselor George F. Haid, died following a heart attack at 3 o'clock yesterday afternoon as she was preparing to address a meeting of the Board of Directors at the Blind Girls' Home, 822 Park boulevard.

Mrs. Haid, who resided at 5712 Cabanne avenue, had been actively associated with the directors of the Blind Girls' Home nearly 35 years. She was secretary of the organization 14 years, until the death, in 1911, of her son, who also was engaged in work for the blind. Recently she accepted the office of recording secretary.

At the time of her death, Mrs. Haid had completed a devotional service and had arisen to address the board, when she collapsed. She died before a physician could be summoned.

Funeral services will be held at 3 p. m. tomorrow at an undertaking establishment at 1905 Union boulevard. Interment will be at Pekin, Ill., where her son is buried. Two sisters, both of Pekin, survive.

Of which were published in the past year, in which the committee sent them out.

In addition to issuing printed matter attacking municipal ownership and praising the conduct of the utility companies, the committee arranged for meetings and provided speakers. It had a women's committee which succeeded in working to a considerable extent through the Ohio Federation of Women's Clubs. When the committee did not supply its own speakers, it furnished speeches to be delivered by other speakers.

Smithsonian Was Fooled. Samuel S. Weyer was one of a number of economists with whom the Smithsonian Institution, a Government establishment, maintains relations. Occasionally these men write articles or booklets on serious subjects, and the Smithsonian issues them under its auspices. In this fashion, Weyer caused it to issue a booklet written by him, entitled, "Niagara Falls: Its power possibilities and preservation."

Subsequent examination disclosed that the booklet was an attack upon Ontario's publicly-owned power system, which distributes electric current at rates averaging about one-fifth of those charged by private companies in this country. The booklet drew the fire of Canadian officials, who pointed out the numerous inaccuracies in it. Officials of the Smithsonian subsequently withdrew it, and burned the plates and severed Weyer's connection with the institution.

Before they did so, however, the booklet had been widely used as an argument against Government ownership and operation of the Muscle Shoals and Boulder Canyon Dam power projects.

Today's evidence disclosed that when Weyer wrote it he was under contract to write propaganda against public ownership, for which he was to receive \$3000 from the National Electric Light Association.

How Propaganda Was Spread. The formation of the Ohio committee was described by Benjamin Ling. He was a reporter for the Cleveland Press in 1929 when Robert Lindsay, president of the Cleveland Electric Light Co., called him in and asked him how he would like to establish an agency through which the public utilities would "take the public into their confidence."

With a considerable show of virtue, Ling declared that the utility magnates of Ohio had "decided to abolish the old closed door policy, and give the public as much information about their business as was possible."

\$33,000 SPENT IN REED'S RACE FOR PRESIDENCY

Contributions to Campaign Organization Total \$35,414 His Treasurer Tells Senators.

Post-Dispatch Bureau, 23 West Building, Washington, May 9.—Senator James A. Reed of Missouri has spent approximately \$33,000 in his campaign for the Democratic presidential nomination, according to figures given today to the Senate Campaign Investigating Committee by Ed S. Villmoare of Kansas City, treasurer of the Reed organization. Villmoare stated that the Reed organization had received \$35,414 in contributions since Nov. 1 and that on May 3 had a balance of \$4217. Reed testified yesterday that he had spent between \$1200 and \$1500 for traveling expenses and incidentals on his speaking tours.

Of the total contributions, August Busch of St. Louis and his associate, Otto Mathi, gave \$5000 each; Charles Howell, Kansas City, \$2000; John Carroll, Washington, \$2000; L. W. Baldwin and E. White, both of St. Louis, \$1500 each; former Gov. Frederick D. Gardner, S. Edwards and S. Rosenfield, all of St. Louis, \$1000 each; A. Valdeheim and Conrad Mann of Kansas City, \$1000 each; Mann is chairman of the Kansas City Republican Convention Committee.

Those who contributed between \$100 and \$500 were: W. E. Hollis, S. Harsfield, William Johnson and B. J. Korman, all of Kansas City, \$500 each; L. W. Baldwin, Washington, \$2000; L. W. Baldwin and E. White, both of St. Louis, \$1500 each; former Gov. Frederick D. Gardner, S. Edwards and S. Rosenfield, all of St. Louis, \$1000 each; A. Valdeheim and Conrad Mann of Kansas City, \$1000 each; Mann is chairman of the Kansas City Republican Convention Committee.

Those who contributed between \$100 and \$500 were: W. E. Hollis, S. Harsfield, William Johnson and B. J. Korman, all of Kansas City, \$500 each; L. W. Baldwin, Washington, \$2000; L. W. Baldwin and E. White, both of St. Louis, \$1500 each; former Gov. Frederick D. Gardner, S. Edwards and S. Rosenfield, all of St. Louis, \$1000 each; A. Valdeheim and Conrad Mann of Kansas City, \$1000 each; Mann is chairman of the Kansas City Republican Convention Committee.

Those who contributed between \$100 and \$500 were: W. E. Hollis, S. Harsfield, William Johnson and B. J. Korman, all of Kansas City, \$500 each; L. W. Baldwin, Washington, \$2000; L. W. Baldwin and E. White, both of St. Louis, \$1500 each; former Gov. Frederick D. Gardner, S. Edwards and S. Rosenfield, all of St. Louis, \$1000 each; A. Valdeheim and Conrad Mann of Kansas City, \$1000 each; Mann is chairman of the Kansas City Republican Convention Committee.

Nobile Describes Flight To King's Bay on Last Lap Before Cruise to North Pole

Airship Italia Drove Through Gale in Snow for Hours Before Emerging Into Calm at Spitzbergen.

By GEN. UMBERTO NOBILE, Commander-in-Chief of the Dirigible Italia Soon to Attempt a Flight to the North Pole.

(Copyright, 1928.)

KINGS BAY, Spitzbergen, May 9. (By radio from the steamship Citta Di Milano to San Paolo Station, near Rome.)—We have come into a world of dreams among a resplendent purity of snows. After so many days of anxious expectation this ice-covered haven, the last lap of our preliminary journey to the North Pole, wears an air of sleepy calm, which is infinitely soothing. I may find it means of solving the enigma of the pole.

Last Saturday evening we left Vadsoe in a heavy storm. Just before I gave the order to go I had to find my way out of a serious dilemma. On one hand there was a danger that storms would attack the airship while at its moorings while on the other hand there was the risk of a stormy flight over the Sea of Barents.

Took Lesser of Two Risks. I decided at last that of the two risks to be taken the latter was the lesser one. As it happened my decision was so sudden that some of my crew were just in time to climb the mooring mast and take their places on board. There was no time to take sufficient supplies aboard. We took our chance of braving the Sea of Barents with the least possible delay.

And the result has shown how timely was my decision. For even a delay of 10 minutes might have made it impossible for us to start from Vadsoe at all. The airship, having left moorings, floated into the icy breeze of Barents fjord. We were all alive with the joy of an impending flight against the Arctic skies. We felt that the fight was inevitable although an untruffled sea seemed to belie our forebodings whilst a few wispy clouds reminded us that in these latitudes it is always day time in May.

Immersed in Pull of Mist. Soon we flew on at a speed of 75 kilometers an hour coasting up to the extreme point of Little Peninsula, which is embraced on all sides by Tana and Varenen fjords.

Soon we were immersed in the immense pull of a gray mist. Both the sea and sky were blotted out. The tall cliffs of the coast were the only touch of color in the vast gray wilderness which surrounded us. Tana lighthouse was invisible, but we were heard, when passing over it. The sharp, long wall of its siren wind us to turn northwest, making for Bears Island.

This first part of our journey was surprisingly smooth after the alarm felt at our departure from Vadsoe, yet amid the melancholy grayness there was an underlying promise of trouble to come.

Oppressed by Cold Landscapes. How far Italy seemed to be from that colorless solitude. We remembered its azure skies as one sees in a dream a fancied world. The northern landscape filled our northern souls with a sense of the sadness, from midnight on the fog began to thicken. This great enemy to navigators gave us no rest. At rare intervals, however, the nocturnal sun of the Arctic peered through the mist, shedding its orange rays upon a sea suddenly transformed into liquid cobalt, as if touched by a superhuman brush.

The Arctic sun is much more approachable than the Italian sun. It has none of the latter's overbearing pride. It will let you look into its face without blinding you.

HOOVER RESENTS QUESTIONS ASKED IN FUND INQUIRY

Continued From Page One.

He is a man I think you will want to get in touch with.

"Do you know whether former Gov. Goodrich of Indiana has contributed any substantial sum to your campaign?" Hoover was asked. I do not know, but I would not think so.

"Have you and former Gov. Goodrich had any business relations?" "No, sir."

"Have you made any promises of patronage?" "Certainly not."

"And none will be made during the campaign?" "Certainly not."

"Go right ahead, Mr. Secretary," the chairman said. "We are grateful to you for your co-operation."

"Well, if anyone had suggested that to me outside of an important inquiry, I would have regarded it as rather offensive," the Secretary said.

Replying to Senator Bratton (Dem.), New Mexico, Hoover identified Lockwood as the publisher of a daily paper at Muncie, Ind. He said Lockwood was a volunteer worker and never had been in his employ. George Akerson, he said, was employed by him personally as secretary.

"Have you any other newspaper men in your employ?" he was asked. "Mr. Akerson is not now a newspaper man."

"Has he had anything to do with establishing publicity in connection with your campaign?" "No."

"If there was any other person in his employ who was engaged in furthering his campaign, Hoover said that Lawrence Richey, one of his assistants, undoubtedly had interested himself in the campaign. He added that Richey had been in his employ for 10 years.

"I want you gentlemen to know that I have not taken any one in my employ for campaign purposes," Hoover added.

"Have you heard anything of Mr. Cook, Minister to Venezuela, being active in your behalf in South Dakota?" Bratton pursued. "I heard he was doing something for me. I have seen him only occasionally."

Expense at the Telephone. Senator McMaster (Rep.), South Dakota, took over the inquiry. Hoover told him that he personally had spent only \$100 or \$200 for telephone calls.

"Is there anyone in your employ authorized to pay campaign expenses?" the South Dakota Senator asked. "I would be astonished at the suggestion," Hoover replied.

"Have you loaned any money or invested any money for campaign purposes?" Hoover said. "I do not understand that."

"Well, such as buying newspapers?" McMaster explained. "No, sir."

The Secretary said he had made no promises to make up a deficit in the campaign fund.

"Are the international bankers opposing your nomination?" Senator McMaster continued. "I have no knowledge of that. I suppose they have a right as American citizens to say what they please."

McMaster asked if it was true that the Hoover organization had been spreading propaganda that the international bankers were opposing him.

"I have seen none," Hoover replied. "I understand that some of those gentlemen take exception to my views, but they are entitled to their own opinion."

SUPREME COURT DOCKETS O'FALLON VALUATION

Effort Will Be Made to Get Ruling Soon on Value of Cases.

WASHINGTON, May 9.—The Supreme Court today docketed cases were docketed in the court today, which both the roads and the Government will bring a final ruling on the validity of railroad valuations, the Interstate Commerce Commission.

The cases of the St. Louis O'Fallon Railway Co. and Manufacturers' Railway Co., which out of the recapture of earnings, reached the court of the cases. At present, while the decision of the court at St. Louis did not make the validity of the commission's valuation, an effort was made by both sides to have the Supreme Court finally decide the question.

The lower court found no commission, but allowed an interest on the value of the cases. The government is appealing, and the commission is appealing, and the Supreme Court finally decided the question.

STOGSDILL'S AID ACCUSES HIM OF HARGETT MURDER

George Fowler Indicted With Him, Takes Stand Against Ex-Detective at Jackson, Mo.

ST. LOUIS, Mo., May 9.—The state's trump card against Richard D. Stogsdill, Frisco railroad detective on trial here for the killing of a non-union brakeman, played today with the production of an alleged eye-witness of the murder.

George Fowler, brotherhood brakeman who was indicted with Stogsdill for the murder last Oct. 7 of B. M. Hargett, known to railroad men as a "scally," because he worked during a strike, turned state's evidence on the stand and pointed out Stogsdill as Hargett's slayer.

In a steady voice, he said that Stogsdill had shot Hargett as they sat in the back seat of the Ford

Scene After Bombers Cause \$10,000 Damage

FOUR-FAMILY apartment building at 916 Eastgate Avenue, University City, after it was bombed last night for the third time since February. The damage is estimated at \$10,000. The building is unoccupied.

CHAUFFEUR KILLS WOMAN AND HIMSELF

Mrs. Elizabeth Wilderman Shot in Yard at Home in Freeburg, Ill.

Mrs. Elizabeth Wilderman, 40 years old, wife of a coal miner, died at St. Vincent's Hospital, Belleville, this morning of five bullet wounds inflicted at 11:30 p.m. last night at her home in Freeburg, Ill., by Sam Drone, 42-year-old chauffeur, who shot and killed himself.

Mrs. Wilderman was found by her husband, Oren, who, with their son, 18 years old, and a daughter, 16, were awakened by the sound of the shots. She was attempting to re-enter the house from a rear yard, where she apparently had met Drone. She is said to have told her husband that Drone, for whom she deserted her husband and children for a period of three weeks five years ago, shot her, although making no statement to authorities before she died. She had been shot through the chest, arms and thigh.

Drone's body was found in his automobile near Leuzburg, 12 miles south of Freeburg, at 6 o'clock this morning by a deputy sheriff. He had been shot through the heart, a 38-caliber pistol being clutched in his hand. The body was taken to Belleville. Drone was separated from his wife, who recently forced him to contribute to the support of their two children.

RUMANIA PEASANTS GO HOME QUIETLY AFTER CONFERENCE
Workers Return to Farms, Weary and Footsore; Political Deadlock Continues.

BUCHAREST, May 9.—Weary and sore-footed after their memorable march to Alba Julia to attend Sunday's people's referendum, Rumania's legion of peasants returned to their farms today to resume spring cultivation.

Absolute order prevailed everywhere. The political deadlock between the Liberals and the peasants' party continues. Judge Maniu, the peasant leader, had not yet presented the peasant ultimatum to the regency demanding the overthrow of the Bratianu ministry.

At the same time the peasants' party announced that it would continue its campaign more intensively to overthrow the present Cabinet, but in what form that campaign will be made was not stated. Maniu today protested to the Government against the "unendurable censorship." Upon his instruction, peasant papers have ceased printing altogether.

U. S. CHAMBER OF COMMERCE DISCUSSES TRADE PROBLEMS

Donaldson Brown, of General Motors, Suggests Method to Check Over-Production.

WASHINGTON, May 9.—With every speaker choosing "teamwork for prosperity" as his keynote, the 20th business men from every part of the country attending the sixteenth annual meeting of the United States Chamber of Commerce here turned today from a consideration of foreign trade and transportation to discussion of problems confronting agriculture, manufacturing and finance.

A group meeting on industrial problems was held by Donaldson Brown, vice-president of the General Motors Corporation, that the "essence of modern-day business management" was in "forecasting and planning a system of control whereby production, purchases of materials, and the employment of capital are co-ordinated with sales requirements."

"The American manufacturer can no longer determine his course according to his ability to purchase the necessary raw materials and the capacity of his manufacturing facilities," he said. "Ultimate consumer demand is the absolutely fundamental factor controlling the continued sale of any product."

Industry, therefore, he argued, should build up "consuming power" by employing a maximum of labor by "increasing and diversifying production." In this way, increasing efficiency in production need not cause unemployment and a reduction of the sign of the buying public. An exact analysis of "consumer demand," he said, would prevent over-production and the recurrence of depressions in the business cycle.

DEATH SENTENCE REHEARING DENIED TO HOLDUP MURDERER
Charles P. Mitra, Unnaturalized Italian of St. Louis, Awaiting Execution in Louisville, Ky.

By the Associated Press. FRANKFORT, Ky., May 9.—The Court of Appeals yesterday overruled a motion for rehearing in the case of Charles P. Mitra, 21 years old, unnaturalized Italian of St. Louis, sentenced to death for the murder of Marion A. George, a Louisville grocer, Dec. 13, 1927.

Previously the Court upheld the verdict of a Jefferson County jury which fixed the penalty at death. Mitra was indicted with Carl Hord, 19, of Louisville, also under a death sentence for the murder.

Mitra, arrested at his home on Daggett street, Dec. 20, admitted shooting the Louisville grocer and displayed a wound on his shoulder where a cleaver hurled by the grocer struck him. At his trial, his attorney pleaded for leniency, declaring Mitra was mentally deficient.

SENATOR HOOPER LEADS WATSON IN INDIANA PRIMARY

Gardner had stiff competition, but obtained apparently safe majorities. Delaware Delegates Uninstructed But Lean to Smith.

DOVER, Del., May 9.—The Democrats of Delaware in State convention here yesterday elected six uninstructed delegates to the National convention, all of whom, according to Harry T. Graham of Wilmington, Democratic State chairman, favor the nomination of Gov. Smith of New York.

Majority of Delegates to Montana Conventions Uninstructed. HELENA, Mont., May 9.—In complete returns from Democratic and Republican county conventions in Montana yesterday indicate delegates elected for the State convention of the two parties favor the nomination of Gov. Smith of New York.

In the few counties where delegations were instructed, the Democrats instructed for Gov. Smith of New York and the Republicans for Frank O. Lowden.

RECORDER GIVES \$2800 FEES TO HIS EMPLOYEES

Tamme, With \$5000 Salary, Donates Part of Perquisites to Charity.

Recorder of Deeds Tamme, whose salary is \$5000 annually, also gets additional fees which last year totaled \$2800, the Post-Dispatch learned today, but unlike License Collector Chapman, he divides the fund among his employees rather than retain it himself.

The fund is a product of a custom of many years standing under which real estate dealers who want deeds and other instruments filed in quick time pay 25 cents extra for immediate filing service. Under the regular office routine there is a delay of from 20 to 60 days in recording work.

Tamme told a Post-Dispatch reporter that while his predecessors had kept the fund themselves, as far as could be learned, he has followed a policy of dividing it among members of his office force, and on occasion has used some of the money for charitable donations.

License Collector Chapman, whose salary is \$4000 annually, has a legal perquisite—a 15-cent commission on each State hunting and fishing license issued in St. Louis—which last year netted him \$5500. He also retains between \$900 and \$1000 annually in interest on his daily office bank balance, a practice regarded by City and State officials as legal.

Impeachment Charges Quashed.
WASHINGTON, May 9.—Impeachment charges brought against Judges George A. Carpenter, James H. Wilkerson and Adam C. Cliffe of Chicago of the Federal District Court were dismissed today by the House Judiciary Committee.

Thrilling Sight On the Way To California
Through service to San Diego via Southern Pacific's famed Sunset Route takes you through thrilling Carrizo Gorge—a spectacle that will live in your memory forever. Your train runs safely along the edge of towering cliffs from which you look down a sheer drop to the rushing torrent far below. An unforgettable adventure you will see on your trip to California if you go Sunset Route.

Let Southern Pacific help you to plan your trip west this year over one of its four great routes. For complete information write today to L. R. Banks, General Agent, Carleton Bldg., 308 N. 6th St., St. Louis, Mo.

BUILDING BOMBED FOR THIRD TIME IN UNIVERSITY CITY

Explosion Causes \$10,000 Damage to Unoccupied Apartment Structure at 916 Eastgate Avenue.

An unoccupied four-family apartment building at 916 Eastgate Avenue, University City, was damaged \$10,000 by a bomb explosion last night, the third bombing there since February. It was built and repaired twice by nonunion workmen.

The building will be repaired once more and precautions will be taken to prevent a fourth bombing, it was said today by James M. Moran, vice president of the West End Realty and Construction Co., which erected this and similar apartments in the neighborhood. Moran would not say whether he intended to place a guard on the premises. He asserted he had received no threats and knew of no motive for the vandalism. He was noncommittal as to insurance on the property.

Last night's explosion took place at 9:20 o'clock and was heard over a wide radius. The bomb had been placed in a closet of the south apartment on the first floor. It wrecked part of the south wall and blew the remainder a foot out of its place. Flooring and ceiling were badly damaged and windows were shattered.

Windows also were broken in an adjoining apartment building, at 914 Eastgate Avenue. Mrs. Colon V. Bonner, who occupies the north apartment on the first floor, returned home with her 8-month-old daughter a few minutes after the explosion, having been delayed by trouble with her automobile. Had it not been for the delay, she said, her daughter would have been in her crib by the window, in the path of flying glass. The empty crib was showered with glass and loose plaster. Mrs. Bonner said her apartment was damaged about \$500.

G. Leo Carlat, who occupies the other first-floor apartment at 914, had just returned home with his wife and 3-year-old daughter and was opening his front door when the bomb exploded. He had detected an odor of burning powder, and, being unable to find its source, intended to telephone to the police.

Damage estimated at \$9000 was caused by the first bomb explosion at 916 Eastgate early last February. Three weeks later, after the damage had been repaired, the place was bombed again, damage being \$5000.

DRIVER WRONGFULLY IDENTIFIED AS ONE WHO KILLED GIRL

Frank Buselaki, Filling Station Proprietor, Proves Innocent After Investigation.

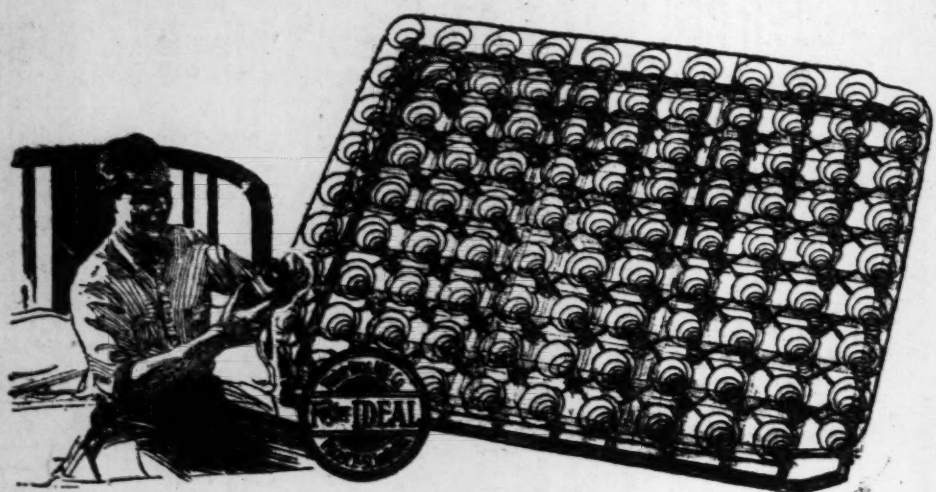

Frank Buselaki, filling station proprietor of 904 Carr street, who was identified by Alex Eaker of 2510 Benton street as the driver of the automobile which killed Eaker's 5-year-old daughter, Maxine, Saturday afternoon, and fled without leaving his name, yesterday was proved innocent.

Disatisfied with the identification, Police Capt. Loepker had continued with the investigation. Yesterday he arrested Philip Schultz, 26, of 2918 Montgomery street and reported that Schultz admitted running down the child with his truck.

Capt. Loepker and his men had traced the license number of the truck to George Hornbeak, a Negro, who said yesterday that he had sold the truck to Schultz. The truck, with a dented front fender, was found in Schultz's garage. A 20-gallon still and 100 gallons of whiskey mash were found in his house.

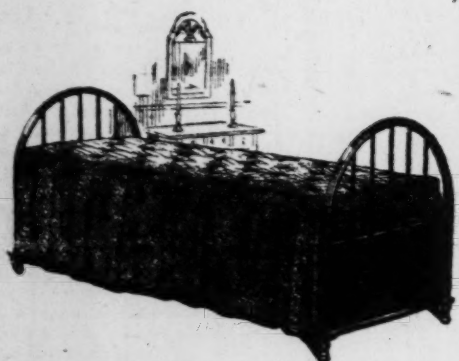

Schultz, according to Capt. Loepker, said that after his truck had struck the little girl near the Eaker home, he picked her up

Dramatic School Play. American Theater May 25 by the Wientgo School of Dramatic Expression. Miss Dorothy Lorenzen, daughter of Mr. and Mrs. William L. Lorenzen of 1224 A. Sidney street, will have one of the leading roles.

Wake Up Smiling!

ILL temper in the morning is really an illness—the result of sleep-starved nerves. The remedy is a FOSTER IDEAL BEDSPRING. You can't be right unless you sleep right.

The Foster Glide Over Day Bed is one of the most popular pieces of fine furniture that we have ever produced. Here is a finely-finished and upholstered couch that opens at a lift of the arm into a full-size bed. Many styles and at reasonable prices, too.

What you need is more rest—better spine support—finer relaxation and better sleep-fed nerves—and the FOSTER IDEAL SPRING with its extra-tall, finely-tempered, body fitting spirals will give you all these benefits. See this bedspring. Ask your furniture dealer to show it to you. He can! And even if he doesn't have the genuine Foster Ideal Spring in stock he can easily get one for you. It's made right here in St. Louis.

GEN. NOBILE TELLS OF STORMY FLIGHT TO KINGS BAY BASE

Continued From Page 2.

wind, and rolling and pitching madly.

We should have preferred even a contrary wind to that excessive propulsion. The thermometer fell to nine degrees below zero, Centigrade (16 above Fahrenheit). At the 76th degree of latitude we sighted our first big iceberg. The sky darkened. Here was the enemy. It came toward us with violent men. And yet, we were now so near our goal.

In Sight of Their Goal.

The Southernmost point of Spitzbergen was plainly visible. Would the elements force us to return after affording us a sight of our haven? Fortunately the Italia resisted the onslaught of the gale and proceeded on her way without much loss of speed. Again a steaming sea announced a dreaded fog. On our right the tall mountains of Spitzbergen were mysteriously hidden but at their base we could see their white slopes meeting the shore where the snow melted into multitudes of grey pools.

Large strips of seaweed covered the surface of the sea. Even this fleeting sight of land was soon denied us.

Now we traveled through impenetrable fog, while the howling of the wind increased. The airship was violently and perilously tossed and shaken. We all sensed the danger. I inquired as to how much petrol we still had on board. I was contemplating the possibility of a forced return trip to Vadsø. It was a difficult moment.

Noses Into Violent Snowstorm.

Suddenly a snowstorm of incredible force broke out, catching the airship sideways. We listened to the incessant hammering of the driven snow on the flexible body of the Italia, which seemed to vibrate and wall like a living being while straining every nerve to obey its masters.

I was in front of the controls. I gave the order: "Against the wind." Then there was a wonderful sight. We saw myriads of snow flakes flying away in a double vortex in a contrary direction. The airship jumped, oscillated and fell until a sharp word of command brought it into line again. We were in the midst of a Dantesque storm. Through the windows of our gondola we witnessed this tumultuous fury of the elements with mingled feelings of surprise and admiration.

It was 9 o'clock. The thermometer marked 12 below, centigrade. Now the wind veered around again behind us. We were doing 130 kilometers an hour. It was severely forbidden on board the Italia to allude to danger before the danger had passed. But we were not afraid. We were silent and exchanged smiles as if we wished to tacitly assure one another of our will to persist at all costs. Our persistence eventually got its reward.

At 9:45 o'clock the Italia began to shed the pall of fog and snow and ceased to pitch and roll so violently. The engines panted as if exhausted by the long ordeal, and presently the airship took a steeper course like a giant freed from fetters. We saw again the golden mountain tops of Spitzbergen, beneath a clear, immaculate sky.

Our feeling of relief cannot be described, as we made that sudden transition into luminous spring weather. We might have been approaching the Mediterranean shore, had it not been for the boundless expanse of snow contrasting with the intense azure of the sea.

The Arctic had given us an unlooked-for festive greeting. We shouted our joy. We already could see the friendly colors of Italy flying at the mast of our supply ship, the Citta Di Milano, and the crew crowding the shore, ready to aid us in landing.

The Italia descended slowly like a monster fatigued, but satisfied.

Airship Safely Housed.

A formidable hurrah from our sailors and Alpine troops reached our ears. We moored temporarily at the mooring mast, owing to the strong wind, but a little later our men from the Citta Di Milano with the kind help of a party of Norwegian workmen, carried the ship into its shed.

Enthusiastic acclamations greeted us as we landed. A few moments later the comfortable warmth of the Citta Di Milano smoking room invited us to rest.

The weather continues fine. We have been here 24 hours, but we have found time to try our skill on the skis.

The Italia is being rapidly overhauled and in a few days will be ready to launch its first challenge to the Sphinx of the Arctic. For the moment we are enjoying the kind hospitality of the Citta Di Milano.

The Post-Dispatch will publish exclusively in St. Louis Gen. Nobile's progressive account of the cruise of the Italia as the expedition proceeds.

CHICAGO CLERGYMAN DIES WHILE CONDUCTING FUNERAL

CHICAGO, May 9.—The Rev. Dr. James S. Stone, rector emeritus of St. James Episcopal Church, died yesterday while conducting a funeral in Evanston.

Dr. Stone was 75 years old. He retired from the St. James pulpit in 1923 and had since lived in Evanston. The funeral was being held in an undertaking parlor when he died.

Dr. Stone had just finished reading the burial service for Mrs. George C. Dent, wife of the Secretary, here, when he passed his hand over his face and asked for a chair. He fainted shortly after being seated and died less than five minutes later.

THE removal of this store to this corner was the best thing we ever did.

For twenty years our business has been growing. People have come here from all parts of the city for Hart Schaffner & Marx clothes. So many have come that this store is one of the country's largest outlets for these famous suits.

Now, on the twentieth anniversary, we feel so good about it that we've decided to do something very exceptional in the way of value-giving.

HART Schaffner & Marx have been helping us for weeks in our preparations. They've sent us their best in young men's suits, in university models, in business men's styles. They gave us the pick of their fine fabrics; their choicest patterns in all the newest colors.

The manufacturers made a sacrifice of prices for this event; we make a bigger one. Their idea and ours is to give St. Louis such fine and smart suits for \$36 that this anniversary will be long remembered.

URGES GRAND JURY INVESTIGATION OF KOELN'S OFFICE

Schneider Sends Request to
Foreman Isaac Hedges
and Offers Services to
Examine Witnesses.

A formal request for a grand jury investigation of the conduct of the Collector's office by Collector Edmond Koeln was sent today to Isaac A. Hedges, foreman of the grand jury, by William R. Schneider, a candidate for the Republican nomination for the governorship.

Schneider tendered his services without cost for the examination of witnesses before the grand jury, and offered to suggest the names of witnesses who, he said, should be called.

The tender, made known by Schneider in an address before the Morgan Street Improvement Association at a luncheon at the American Hotel, follows recent disclosures by the candidate that Koeln has retained State income tax fees approximating \$10,000 annually in addition to the \$10,000 salary the State Constitution authorizes him to retain from fees of the office.

In his letter to Hedges, Schneider wrote:

"In your capacity as foreman of the grand jury, I call your attention to the following section of the Constitution of Missouri:

"Article 14, Section 11. Officers having public funds, grand jury to investigate. It shall be the duty of the grand jury in each county, at least once a year, to investigate the official acts of all officers having charge of public funds, and report the result of their investigations, in writing, to the court."

"In view of the facts which have recently been brought to light with regard to the conduct of Edmond Koeln, St. Louis City Collector, in the management of his office, I respectfully suggest the propriety and public importance of the observance of the foregoing section of the Constitution by your honorable body. I am assuming that this section has not heretofore been called to your attention.

"I sincerely hope that the public importance of this communication will not be minimized by the fact that Collector Koeln has brought a candidate into the race for the gubernatorial nomination, and regardless of what your sentiments may be concerning Mr. Koeln's candidacy, I trust that the importance originally intended will be attached to the above section of the Constitution.

"I herewith tender my services gratis to conduct the examination of witnesses which may be brought before your honorable body in this investigation. I would like to suggest some witnesses. My list will not include Mr. Koeln."

Grand juries in the past have made prefatory examinations of Collector Koeln's reports.

UTILITIES OFFICER FAVORS

PROPAGANDA IN SCHOOLS

Information about public utilities should be supplied school children and students in universities and colleges, J. F. Owens, general manager of the Oklahoma Gas & Electric Co., told the convention of the National Electric Light Association, mid-west division today, at Hotel Statler.

"If the public is to know us as we know ourselves to be," Owens said, "it certainly is a part of our job to see to it that the educational institutions have an open door to our industry and that public utilities act as a sort of laboratory in developing the students within the walls of educational institutions."

The Federal Trade Commission recently made public in Washington a report showing how various divisions of the National Electric Light Association had instigated propaganda in the public schools. Teachers and students were urged to find employment during the summer with public utility concerns, and the power companies offered to supply schools with speakers and data, both presumably being favorable to public utilities.

The convention is holding a three day session, opening this morning. In addition to a series of addresses in the morning sessions there will be group meetings and entertainment events.

YOUTH, 19, ARRESTED IN SECOND ELOPEMENT

Boyer Godfrey, former Ferguson High School student, who eloped with a 19-year-old girl in 1925, their marriage later being annulled, eloped early yesterday with Marion Wyatt, 23, of Ferguson, and is under arrest at Springfield, Mo., charged with kidnapping her.

Godfrey left Ferguson after his first elopement, and was reported to be living with his parents in Mexico. He returned Sunday, staying with a friend, Ralph Skillington, 322 St. Louis avenue, Ferguson. Monday night he called on Miss Wyatt, daughter of Mr. and Mrs. Frank Wyatt, 327 Tiffin avenue, Ferguson. He danced with her and then escorted her to a drug store for ice cream.

After swearing out a warrant against Godfrey yesterday, Wyatt telephoned to Missouri cities to be on the lookout for his daughter and Godfrey, driving in the latter's automobile bearing a Texas license. Springfield police stopped them, arresting Godfrey and placing Miss Wyatt in care of the police matron, pending arrival of her parents to take her back home.

Godfrey was 17 when he and Hope Stanton, two years his senior, eloped to St. Charles, July 29, 1925, and were married. In annulling the marriage at Clayton in 1926, she said he had misrepresented his age. She is the daughter of Mrs. Annette Stanton of University City.

COL. H. E. EAMES, RECRUITING OFFICER, DIES AT FT. SHERIDAN

St. Louis Army Man, 57, Recently Went There for Health; Had Career as Architect.

Col. H. E. Eames, Army recruiting officer for the St. Louis district, who enlisted as a private after a local career as architect, died of pneumonia today at Fort Sheridan, Ill., to which he went recently for his health. He was 57 years old.

ACTRESS LEAVES BARON WAITING AT THE CHURCH

Says She Did Not Know Italian Had Advertised Title for Sale at \$100,000.

By the Associated Press.
NEW YORK, May 9.—Baron Giorgio Mario Suriani of Italy, who obtained a license to marry Miss Winifred Barry, 21-year-old actress, was left waiting at the church yesterday.

JUDGE ORDERS JURY TO FREE MAN HELD FOR AUTO FATALITY

Sol House, 21, Was Driving Carefully, Witness Says, When Car Struck Woman, 59.

Sol House, 21 years old, of 5452 Wells avenue, was freed of a manslaughter charge growing out of an automobile accident today when Circuit Judge Killore ordered the jury to find him not guilty.

Man So Nervous Gets Sore When Spoken To

"It actually irritated me to have anyone talk to me, I was so nervous. Vinol ended the trouble, and I feel wonderful now."—Wm. Fahy.
For 30 years doctors have prescribed iron, phosphates, cod liver oil, etc., known as Vinol. The very FIRST bottle brings sound sleep and BIG appetite. Nervous, worn-out people are surprised how QUICK iron, phosphates, etc., give new life and pep. Vinol tastes delicious. Wolff-Wilson Drug Co.

SAXOPHONE THEFTS CHARGED Man Indicted for Luring Musicians Into Auto, Then Robbing Them.

By the Associated Press.
WHITE PLAINS, N. Y., May 9.—Charged with repeatedly hiring musicians, taking them for a ride, and then making them walk home minus their saxophones, Herbert

Heuthe will be returned to Brooklyn, where he lives, to answer to two indictments. Heuthe was arrested here for robbing musicians he had lured into an automobile on promise of employment and then it was learned that he was wanted on similar counts in Brooklyn.

ASK YOUR DEALER ABOUT SUPERIOR NACHMAN MATTRESS

MANUFACTURED BY **R. H. MEYER**
Wholesale Only

2209-11-13 N. Broadway, St. Louis
Tyler 3522 or Tyler 0266

You Too Can Sleep
on the Mattress
chosen by
Millionaires

Note the resilient double-cone springs. Eyed ends prevent piercing or wear of fabric. Patented anchoring holds each spring permanently upright and in place. Guaranteed not to tip, sag, hump or mesh. Springs cannot "click" or develop noise.

NACHMAN Spring-Filled MATTRESSES

More Sleep Per Hour

The happiest surprise of your life will be your first night's sleep on one of these marvelous, scientifically perfect mattresses. Yes—the inside of the mattress is made of numerous springy coils—a unique, exclusive one-piece construction and assembly perfected and patented by Nachman. Never before has such luxurious, permanent comfort been built into any mattress at any price.

Already thousands of these mattresses are in use in the finest homes, clubs, hotels and hospitals.

All the beds of the Leviathan, the finest ship afloat, are now equipped with Nachmans. The Hotel Pennsylvania, of New York, as well as Hotels Statler in other cities, and many other well known hostilities of America, now give

their guests this unexcelled sleeping comfort.

Deep, sound, undisturbed sleep means everything to your health and efficiency. A NACHMAN Spring-Filled MATTRESS assures life-long superlative comfort—a wonderful night's rest every night. You need not buy another mattress for years to come. That's why a Nachman is by far the most economical mattress you can purchase.

Only licensed mattress manufacturers can use the Nachman Inner-Spring construction. Guaranteed not to sag, bulge, buckle, tip, snarl, lose its shape or amazing resiliency. Another big advantage is the self-ventilating feature. Turning or back-porch airing as with ordinary types are now unnecessary.

A full-size Nachman Spring-Filled Mattress costs only \$39.50. Denver and West, \$41.50. Hair Upholstered, \$50 to \$100. At all good Department and Furniture Stores.

**Don't Make a Toy
Out of Baby
—Babies Have Nerves—**
By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting and invariably causes irritability, crying or sleeplessness.
Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.
With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

Don't Make a Toy
Out of Baby
—Babies Have Nerves—
By RUTH BRITAIN

Much of the nervousness in older
children can be traced to the over-
stimulation during infancy, caused
by regarding baby as a sort of an-
imated toy for the amusement of par-
ents, relatives and friends. Baby
may be played with, but not for
more than a quarter of an hour to
an hour daily. Beyond that, being
handled, tickled, caused to laugh or
even scream, will sometimes result
in vomiting, and invariably causes
irritability, crying or sleeplessness.
Fretfulness, crying and sleepless-
ness from this cause can easily be
avoided by treating baby with more
consideration, but when you just
can't see what is making baby rest-
less or upset, better give him a few
drops of pure, harmless Castoria. It's
amazing to see how quickly it calms
baby's nerves and soothes him to
sleep; yet it contains no drugs or
opiates. It is purely vegetable—
the recipe is on the wrapper. Lead-
ing physicians prescribe it for colic,
diarrhea, constipation, gas
in stomach and bowels, feverishness,
loss of sleep and all other "upsets"
of babyhood. Over 25 million bot-
tles used a year shows its over-
whelming popularity.
With each bottle of Castoria, you
get a book on Motherhood, worth its
weight in gold. Look for Chas. H.
Fletcher's signature on the package
so you'll get genuine Castoria.
There are many imitations.

HOW 12 CITIES MEET PROBLEM OF BOND FOR TAXIS

New York, Chicago and
Boston Passengers Safe-
guarded in Accidents by
State Law.

Like St. Louis, six other prin-
cipal cities of the nation have no
legal requirement for liability in-
surance or bonds for taxicabs, in-
quiry by the Post-Dispatch shows,
while cabs in three cities are re-
quired by State law to give the
public such protection and three
other cities demand it by ordi-
nance.

Attention here was drawn to this
topic again by the recent sale of
the largest taxi line in St. Louis,
operating yellow cabs, to William
J. Kemp of 3503 Marcus avenue.
The sale was made by the receiver,
Kemp, in announcing the forma-
tion of American Taxicabs, Inc., to
take over the business, said it
might be necessary to make a
small increase in the flag pull or
initial charge to provide a fund for
meeting personal injury and prop-
erty damage claims. However, no
change in the rate has been made
and Kemp's attorney declared to-
day that none was in immediate
prospect.

It was pointed out in the Post-
Dispatch last March that rates for
liability insurance for taxicabs,
service cars and buses here are
prohibitively high, and agents are
unwilling to accept the risks; also
that no St. Louis ordinance nor
Missouri law requires operators of
public conveyances to furnish
bonds or insurance to meet liabil-
ity for accidents. An ordinance
pending in the Board of Aldermen
would require service cars only to
carry insurance with a maximum
coverage of \$5000 for injury of one
person or \$10,000 for two or more.
Cities included in this survey
which have no requirement for
bonds or insurance are Cleveland,
Washington, Baltimore, Pittsburg,
Pa., Atlanta, Ga., and Kansas City,
Mo. those in which State laws
require insurance are New York,
Chicago and Boston, and those
having city ordinances are Phila-
delphia, Detroit, Mich., and Los
Angeles, Cal. Cleveland is the only
city larger than St. Louis without
some form of protection of this
sort for the public.

The situation in 12 other cities
outside St. Louis follows:

NEW YORK.—State law re-
quires indemnity bond of \$2500 to
\$5000 for each taxicab, the amount
to be fixed in each instance by
within the discretion of the State
Insurance Commissioner and the
State Motor Vehicle Commission.
There is no city ordinance. A
member of the Legislature charged
recently that irresponsible cab
owners were organizing mutual
companies to insure their own ma-
chines at a nominal fee.

CHICAGO.—State law, covering
cities over 100,000, requires each
cab must file a \$2500 bond with
the Secretary of State. Windshield
stickers are changed monthly to
show compliance with the law.
The Yellow Cab Co. (of Chicago),
operating more than 75 per cent of
the taxis, and the Checker Cab
Co., running most of the rest,
sponsored this law.

BOSTON.—The State law re-
quiring compulsory liability in-
surance on all automobiles applies to
taxis. Vehicle license plates can-
not be obtained without a showing
by certificate from an insurance
company that adequate insurance
has been provided. Taxi owners
in Boston and suburbs, which com-
prise one zone under this law, must
pay a minimum of \$150 a year in-
surance premium on each cab or
by paying a flat rate of \$400 can
obviate the red tape of constant
audits of their books by the insur-
ance companies. The present rate,
subject to the annual minimum, is
1 3/4 cents a cab mile for personal
injury and property damage cov-
erage.

PHILADELPHIA.—City ordi-
nance requires a \$5000 bond, filed
with the City Solicitor, for every
taxi and bus operating without sat-
isfactory private insurance. Proof
of the sufficiency of insurance
must be furnished.

DETROIT.—Under a city ordi-
nance, every taxi gives the city a
\$1000 bond to guarantee that court
judgments on accident and damage
claims will be paid, and suits may
be instituted by citizens in the
name of the people of the city.

LOS ANGELES.—City ordinance
requires the filing of bond for ev-
ery cab with the City Board of
Public Utilities & Transportation,
and the bonds must be approved
by the board; coverage of \$5000 for
injury of one person or \$10,000 to
two or more and of \$500 for prop-
erty damage must be given.

CLEVELAND.—No recourse ex-
cept through suit and judgment
against the operator's assets. It
has been found that when it was
sought to seize cabs of one com-
pany to satisfy judgments such
driver had been made an owner
so that it became difficult if not
impossible to attach any cab ex-
cept the one figuring in the suit.

out fixed stands but the commis-
sioners are trying to find a legal
means of extending jurisdiction
over them. Numerous accidents
involving owner-operated cabs
have made some sort of legisla-
tion necessary and the Public Utility
Council is preparing a bill which
will probably call for compulsory
insurance.

BAITMORE.—No recourse ex-
cept through suit and judgment
against the operator's assets.

PITTSBURG.—No special ordi-

nance covering taxi liability, but
State motor vehicle code holds
owners of all motor vehicles trans-
ferring the law liable for personal
injury or property damage claims.
ATLANTA.—No recourse except
through suit and judgments
against the operator's assets, but
the operators declare they carry
sufficient insurance voluntarily.

KANSAS CITY.—A city ordi-
nance to compel carrying of insur-
ance was under consideration, but
it was held that the Missouri law

would prevent its enforcement.
This was declared to be the case
because the courts have ruled that
no municipality can require more
of a vehicle operator than the State
does. For this reason, an old St.
Louis ordinance concerning public
conveyances, not including a bond
or insurance clause, was invali-
dated.

CALLS SIDENER'S PLEA FOR 30 AIDS NEEDLESS

E. M. Grossman Says Voluntary Defender Plan Would Solve Prosecutor's Problem.

Circuit Attorney Sidener's request of the St. Louis Bar Association that 30 leading lawyers volunteer their services to assist his staff in prosecuting criminal cases, was unnecessary, in the opinion of E. M. Grossman, president of the Voluntary Defenders' Association.

In a letter yesterday to Jacob M. Lashly, president of the bar association, Grossman says he assumes that Sidener, who is seeking reelection to a third term, was "entirely sincere" in his request for legal help.

"I merely feel," Grossman adds, "that Mr. Sidener has been too much occupied to do so, or has neglected to inform himself fully regarding what is known as the 'defender plan,' which the Voluntary Defenders' Association of St. Louis proposed to establish in St. Louis. If he had done so, I think he would realize that the establishment of the defender plan in St. Louis would accomplish exactly the thing which he is aiming at in his plea, namely adequate prosecution of real criminals."

Would Clear Dockets. "The defender plan would do this by so helping him to clear the dockets of comparatively minor criminal cases that he and his assistants would have plenty of time to prepare for and to prosecute the major cases."

Grossman quotes indorsements of the defender plan by Judges of Courts where it is in operation, and invites Sidener to investigate its success in Connecticut, New York City, Chicago and Los Angeles.

"If Mr. Sidener will accept this invitation," Grossman concludes, "I feel quite sure that when he has obtained replies from his correspondence he will withdraw his letter on the subject of volunteer prosecutors, and give his enthusiastic aid in the direction of establishing the defender plan in St. Louis, at the earliest possible day."

Sidener suggested that 30 volunteer prosecutors should try cases that are "especially shocking to society, and that may involve unusual difficulties in prosecution." He referred to newspaper criticism of his official conduct and added: "I realize that the newspapers will in all probability also in this instance say that my asking of the assistance herein suggested is evidence of weakness."

2,000,000 OF 3,500,000 AUTOS LAST YEAR SOLD ON TIME BASIS
Finance Officer Testifies Before House Subcommittee for Bachmann Bill.

WASHINGTON, May 9.—A House Judiciary Subcommittee was told yesterday by C. C. Hanch, general manager of the National Association of Finance Companies, that 2,000,000 of the 3,500,000 automobiles sold last year were sold on the installment plan.

Witnesses representing finance companies appeared before the committee to indorse the Bachmann bill to make the procedure for forfeiture of vessels and vehicles under the customs, navigation and internal revenue laws conform with that used in prohibition violations.

J. G. Meyerson of New York explained that the bill was designed to protect the innocent owner of an automobile from losses which he said occurred frequently when the machine was seized before it had been fully paid for.

Schoolboy Hangs Himself.
By the Associated Press.
WATSEKA, Ill., May 9.—Van Powers, 16 years old, a junior in the Watseka High School and son of E. W. Powers, superintendent of the city schools, was found dead, hanging by his belt in the locker room of the High School gymnasium here at 9 o'clock Tuesday night. His body was discovered by the school janitor. Suicide is generally believed.

Dog Travels by Plane.
By the Associated Press.
MONTREAL, May 9.—A Belgian sheep dog is traveling, along with Alfred Lowenstein, Belgian financier. They flew here from New York yesterday.

Tender, Aching, Swollen Feet
In Just Five Minutes These Sore, Tender, Aching Feet Get Amazing Relief.

You probably feel like a lot of other people that about all you can do is dust some powder in your shoes or give your feet a special foot bath and let it go at that, but don't be foolish. Make up your mind today that you are going to give your feet a real chance to get well.

KRUEGER SEEKS JUDGESHIP HE LOST IN 'THREE-K' FIGHT

Alderman Files for Republican Nomination to Bench of Criminal Correction Court.

Chauncey J. Krueger, Alderman from the Twenty-fourth Ward, filed at City Hall yesterday as candidate for the Republican nomination for Judge of the Court of Criminal Correction, a position he held from 1916 to 1920, when he was defeated for re-election in the "Three K" fight of the League of Women Voters.

Krueger seeks to fill the unexpired terms of the late Calvin Miller, which ends on Dec. 31, 1935.

Others who filed at the City Hall yesterday were: Deputy Circuit Clerk, for the Republican City Committee from the Ninth Ward. Mrs. Theodore Bierdeman, 2065A McNair avenue, for Republican committeewoman from the Ninth Ward.

William Batavia, 2318 Franklin avenue, for Republican committeewoman from the Fifth Ward. Mrs. Chase Harris, 2721 Mills street, for Republican Committeewoman from the Fifth Ward.

Today, Lenore Kamer, 3733 Lindell boulevard, filed for re-election.

REFRIGERATION

GAS refrigeration is silent, simple, economical, entirely free from trouble, and it never wears out. There are no moving parts to worry about—no motor, no fan, no compressor, pump, belt or pulleys.

You can go away for a day or a week if you wish, yet the Gas Refrigerator goes right on working just the same. Should the gas supply be interrupted no harm is done. The freezing action simply stops and an automatic device shuts off the gas until you turn it on again.

The Gas Refrigerator does everything any refrigerator will do and it does it without noise, without moving machinery, without any servicing or repairing. It can be had in a variety of beautiful and unusual color effects.

Any family with a moderate income will find it easy to become the proud owner of a Gas Refrigerator. The down payment is not exorbitant, and the balance is stretched over a period that makes it easy on the family budget. Make up your mind that your family deserves this healthful, modern method of refrigeration.

OPEN SATURDAY UNTIL 9 P. M.

MISSOURI - PACIFIC PLANS TO USE NEW DUPO (ILL.) BRIDGE

President of Company Ex-
pects Project to Be Com-
pleted in Two Years at
Cost of \$3,500,000.

Plans for the proposed railway
and vehicular toll bridge over the
Mississippi River between Caronde-
let and Dupu, Ill., were announced
today, following passage of the
franchise yesterday by the lower
house of Congress. The Senate
passed a companion bill a month
ago, but the measure must return
to the Senate for approval of a
technical House amendment before
going to President Coolidge for
signature.

F. Winston Johns, a broker, presi-
dent of the Dupu Bridge Co., said
that as soon as the bill became ef-
fective, engineers would begin a
detailed study of construction costs,
after which financial arrangements
would be made. This corporation,
he said, would retain control of the
project, and expected to open the
bridge to traffic within two years.
A tentative estimate of the cost
is \$3,500,000 to \$5,000,000. The
company expects the Missouri Pa-
cific Railroad to utilize the cross-
ing, to replace its cumbersome but
busy freight car ferry service now
connecting Carondelet and Dupu.
A responsible officer of the Mis-
souri Pacific has told the Post-Dis-
patch that if the west end of the
bridge is between River des Peres
and Jefferson Barracks, and other
conditions are acceptable, the road
will use it.

Plans Second Line Also.

The west end of the bridge is
planned to be near River des Peres.
Johns said an effort would be made
to get the Manufacturers' Rail-
way to use the structure also, par-
ticularly if the Interstate Com-
merce Commission should refuse
the Manufacturers' right to
utilize the Municipal Bridge—a
privilege against which the Terri-
torial Railroad is protesting. To
reach the Carondelet-Dupu Bridge,
Johns explained, the Manufactur-
ers' would have to get trackage
rights from the Missouri Pacific,
but on the East Side a connection
with the Alton & Southern Rail-
road, which the Manufacturers' de-
sires, could be made.

Engineering details, such as the
number of tracks for the projected
bridge, have not been worked out,
but the tracks will be in the center
of a single-deck structure, with a
vehicle roadway on either side.
Charges for the railroads' use and
vehicles tolls have not been set.
Harrington, Howard & Ash of
Kansas City, an engineering firm,
will design and supervise erection
of the bridge.

United States highway No. 61,
which runs from St. Louis to Cape
Girardeau, Mo., and Memphis,
Tenn., will be connected with Illi-
nois No. 3, running from East St.
Louis to Chester, by the bridge. It
is proposed to advertise this cross-
ing extensively for local traffic
convenience and as a short cut to
the Ozarks from the East and
Southern Illinois, avoiding the con-
gested city district.

A syndicate of St. Louis and
Chicago bankers will finance the
project, Johns said, probably of-
fering first mortgage bonds, de-
bentures and common stock for
sale. The Dupu Bridge Co. was
incorporated with nominal capital
to obtain the franchise, but will
be expanded when need arises.
Richard J. Lockwood, assistant
general manager of the Public
Service Co., is its vice president
and engineer, and J. Harry Rehme,
cashier of the Cass Avenue Bank,
is secretary-treasurer. Johns,
Lockwood and Rehme own all the
stock at present.

Johns declared the company
would retain control unless Mis-
souri and Illinois or subdivisions
thereof exercised the right under
the franchise to buy or condemn
the bridge for public use. If such
acquisition occurs after 10 years
following completion of the bridge,
it is provided that no allowance
may be made for good will, going
value or prospective profits, but
only for original cost, less depre-
ciation and plus betterments, plus an
allowance not exceeding 10 per
cent of the physical cost for financ-
ing and promotion costs. There
are no conditions attaching to pub-
lic acquisition of the bridge before
10 years.

Olive St. Road Plan Passes.
The Senate passed yesterday a
bill authorizing a highway toll
bridge over the Missouri River at
the end of Olive Street road, west
of Chesterfield, St. Louis County,
in the name of J. H. Haley, a Clav-
ton lawyer representing a Citizens'
Committee. A similar bill is pend-
ing in the House.

Haley said today that when and
if the measure was passed finally, a
mass meeting would be called to
consider means and desires as to
financing and constructing the
bridge. The State Highway De-
partment stands ready to erect a
free highway bridge at that point,
provided private interests do not
start a project definitely and pro-
vided the \$75,000,000 bond issue is
voted next November.

A House bill authorizing the
Kansas City Southern Railway to
bridge the Missouri River at East
Kansas City, Clay County, was
passed by the Senate yesterday and
goes to the President for approval.

Yachtsman to Wed Claire Luce.

FREED FROM THE MEDICINE HABIT

Kellogg's ALL-BRAN
brought welcome relief

Sufferers from constipation will
be interested in Mrs. Van Horn's
letter below. She wrote us, volun-
tarily, to express her appreciation
for the wonderful results ALL-
BRAN brought.

June 17, 1927
"I feel as if I must write you a few
lines to let you know what a wonder
your ALL-BRAN is and what it has done
for me and many others I have told about
it. I have been using it for one year and
have a movement every morning. Before,
I was taking medicine every three or four
days. Now, I never take any. Many
thanks to ALL-BRAN. I can't praise it
too much."

Sincerely,
Mrs. G. W. VAN HORN,
2125 S. 57th St., Philadelphia

Don't let constipation sap your
health and strength. Headaches,
dizziness, blotched complexions are
only a few of the evils it causes.
It is responsible for more than
forty serious diseases.

Guard against it—now. Kellogg's
ALL-BRAN is guaranteed to bring
relief. Just eat two tablespoonfuls
daily—chronic cases, with every
meal. ALL-BRAN is a ready-to-
eat cereal—100% bran. Delicious
and healthful with milk or cream
or with fruit or honey added. Re-
sists on package. Sold by all gro-
cers. Made by Kellogg in Battle
Creek.

Kellogg's
ALL-BRAN

York Yacht Club, is to wed Claire
Luce, blonde dancer from Florence
Ziegfeld discovered. Much of the
courtship was in an airplane. He
was already a pilot when she en-
rolled as a student at Curtis Field.

Headaches

Don't "give in" to a headache as something
that must be endured. Nor suffer the pains too
many women accept as their "natural lot." Or
any pain for which a tablet of Bayer Aspirin is
an absolute antidote!

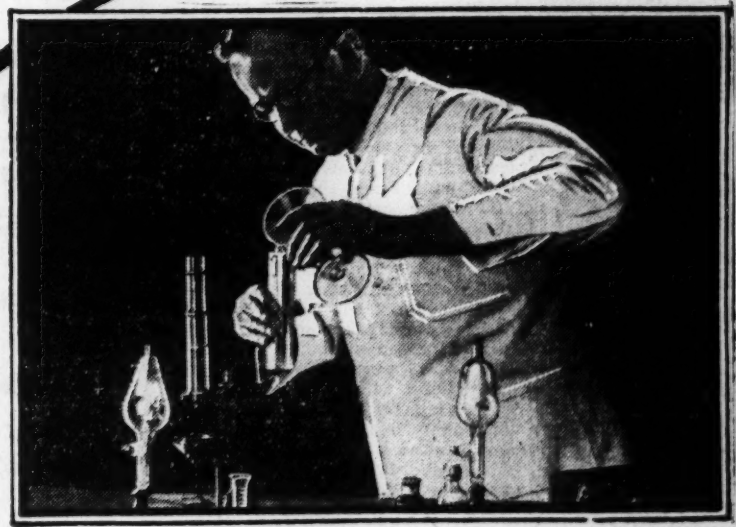

When you have an ache or pain, your
first thought should be of Bayer Aspirin.
Because it's sure-fire; it does stop pain—
in a hurry. Because it's safe. Bayer
Aspirin does not affect the heart. Every
druggist has the real Bayer, with proven
directions in each box.

ASPIRIN
Aspirin is the trade mark of Bayer Manufacture of Monoclonalacetic Acid of Salicylic Acid

A sweeping
endorsement

for this new
way of taking

Milk of Magnesia

SCIENCE Once Again Changes an Old-fashioned
Method to a New, Modern and Better Way

THIS new way—this better way—of taking Milk of Magnesia has been quickly accepted by
doctors—dentists—druggists—men—women—and even little children. Manufacturers of Milk
of Magnesia have known for years that the "tablet form" was the better way and Scientists
have labored unceasingly for the way to make Milk of Magnesia into tablet form.
Till recently, all their efforts have been met with disappointing failure. It remained for us, our
Chemists, with experiment after experiment, to discover the secret—to find the way: this new way.
MILNESIA WAFERS—Pure Milk of Magnesia in Tablet form—is the better way of taking Milk
of Magnesia. You will be convinced the moment that you try MILNESIA WAFERS.

First: By this better way, you simply chew or
allow the wafer to melt in your mouth. Because
it is so pleasant to the taste, it is not necessary to
gulp it down hastily, like the old-fashioned dose.

Second: This way allows for more beneficial results to the
teeth, gums, throat and alimentary tract. Slowly finding its
way, it penetrates to every crevice of the mouth and throat,
correcting acidity and sweetening as it goes.

Third: This way gives you an accurately measured dosage.
No guessing—no measuring—no shaking—no spilling.
Each tablet is Certified to contain 2 teaspoonfuls of Pure
Milk of Magnesia. Each tablet also allows for breaking
into 1 or 1/2-teaspoonful quantities if desired.

Fourth: This new way does away with settling—freezing—
evaporation and waste.

Fifth: This new way is a new day for children. They actu-
ally like the taste. No longer will you or they have to
struggle through a disagreeable dose.

Take this coupon to
your druggist today.
It is worth 10c.

I want to try Milnesia Wafers, the new and
better way of taking Milk of Magnesia. I under-
stand this coupon is worth 10 cents and with it I
can purchase one 35c package for 25c or one 60c
package for 50c.

Busses Would Help In Case of Trolley Strike

How City's 790,000 Daily Riders Would Get About—Service Car Drivers Say They Would Not Increase Fare.

In the event of a strike by the Public Service Co. carmen, St. Louisans would not be as short of means of transportation as they were during the last strike, in 1918, because there is an independent bus service and the number of passenger automobiles here greatly increased in the last 10 years.

Operators of the relatively small bus service which the street car company operates would be called out by the union, if there should be a strike, but the People's Motor Bus Co. would not be affected. The People's company, with regular lines extending to the southwest, northwest and cross-town, is using 126 double-deck and 53 single-deck busses, with an aggregate seating capacity of 9909. President Meade said it would be possible, if demanded by the public, to increase the capacity to about 12,700 by letting passengers stand. At least 150,000 persons could be carried on the busses in a day, he added. All but 15 single-deck busses are on routes going downtown.

An average of about 690,000 passengers daily is carried by the Public Service Co. now and nearly 100,000 by the People's company.

In 1918 there were 36,095 automobiles licensed by the city, but by last year the number had risen to 139,787. There has been a corresponding increase in the number of machines in the suburbs, whence many city workers come.

Undoubtedly, most automobile owners who do not make it a habit to go to work in their own cars would utilize them should a strike occur, and incidentally, most of them would be likely to carry friends or pick up strangers as a courtesy. Some automobile owners, of course, might seize the opportunity to make an honest penny.

Approximately 550 service cars are operating here now, chiefly between downtown and the West End, though lately some have branched to the northwest and southwest. Representatives of the drivers have declared their rates, which have a maximum of 25 cents, would not be increased if there should be a trolley strike.

Automobile dealers say there are many second-hand cars on their hands which persons of speculative bent probably would buy to provide transportation service.

An idea of the extent of the practice of driving downtown in private passenger automobiles may be gained from these figures of a 1926 municipal survey: 6000 machines parked on the fringe of the district where all-day parking is permitted; 2000 cars left during the day in the congested area of one-hour parking; nearly 6000 stored in garages and lots.

The same survey showed that between 7 a. m. and 6 p. m. daily 87,700 private passenger automobiles entered and left the downtown district, carrying 142,819 persons, including the drivers; 9645 street cars entered and left with 315,356 passengers; 1956 busses with 35,333 passengers and 1208 service cars with 2705 passengers. The figures of course cover the multiplicity of trips. Between 10 a. m. and 4 p. m., the non-rush-hour period, it was found that 7106 passenger automobiles entered and left the district per hour, with 11,191 passengers.

Half of the automobiles going downtown are from the west and

FIRST WOMAN MEMBER OF ST. LOUIS BAR ASSOCIATION

Miss Bonita E. Schramm, Who Recently Graduated From Washington U. Law School, Admitted.

Miss Bonita E. Schramm, who recently graduated from the Washington University law school, has been admitted to membership in the St. Louis Bar Association and is the first woman lawyer to gain entrance to that association. The Admissions Committee reported

favorably on her petition Monday night and the members without dissent approved the recommendation, although heretofore the association has not favored receiving women in its organization.

Miss Schramm was the third woman to apply for membership. Women lawyers have a bar association of their own but Miss Schramm said she preferred to be identified with the men's organization, believing that it carried more prestige in the legal profession.

Bigger Pensions for Veterans.

By the Associated Press. WASHINGTON, May 9.—Veterans of the World War totally incapacitated for any work would have their compensation increased from \$100 to \$150 a month under a bill prepared for introduction today by Representative Berger (So-

cialist) of Wisconsin. Totally blind former service men would get an increase of \$100 to \$250 a month, while those who lost both eyes and one or more limbs would receive \$300.

Many people, two hours after eating, suffer indigestion, as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes. You will never use crude methods when you know this better method.

Department Buyers for 112 Great Stores insist on Lux for their OWN things

The greatest group of experts
ever consulted

92% of the Department Store Buyers interviewed in 112 of the most important stores in America insist on Lux for their own precious things!

Imagine what this means! These women are the buyers of women's and children's dresses, blouses, underthings, hosiery, gloves, for the great stores which do three-fourths of all department store business in the United States.

Experts in Clothes

They are paid huge salaries because of their sure knowledge of fabrics and styles.

For the first time, hundreds of these experts in big cities from Boston to Los Angeles have given their opinion about the best way to cleanse today's clothes and fabrics.

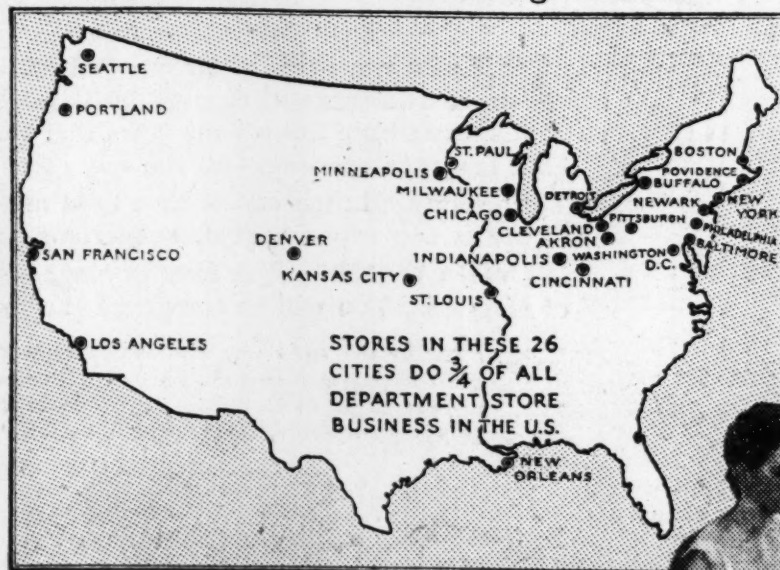

Interviewed in their own departments of leading stores in 26 cities, they told just how their own nice things are taken care of.

And their verdict was well-nigh unanimous!

92% of these experts insist on Lux!

Knowing clothes and fabrics, these experts will take no chances!

Like women everywhere, the women who buy for America's great stores overwhelmingly insist upon safe cleansing with Lux!

ALL OVER THE UNITED STATES, from coast to coast, successful women buyers, heads of their own departments in the big stores of the 26 cities shown above, told frankly how they cared for their own things. For sheer stockings, delicate underthings, sweaters, charming frocks, gloves, 92% of these clothes experts—92 out of every 100—insist on Lux!

Like the department store buyers, women everywhere trust their nice things to LUX. For women have found, as the great motion picture studios—the New York musical shows—have proved by test, that washing with Lux doubles the life of fabrics! Pure Lux has none of the harmful alkali found in many soaps, whether flakes, chips or cakes—nothing to weaken delicate fibres, fade nice colors.

DEPARTMENT STORES send their women buyers to New York and Paris to select smart clothes. The above picture, an actual scene in the New York showrooms of Jesse Woolf and Co., makers of high-priced frocks, shows how buyers select these clothes.

MRS. KNAPP'S TRIAL ENDS WITH HUNG JURY

Panel Said to Have Stood 7 to 5 for Conviction—Out Nearly 14 Hours.
Special to the Post-Dispatch.
ALBANY, N. Y., May 9.—Hopelessly deadlocked after nearly 14 hours of deliberations, the jury which has been trying Mrs. Florence E. S. Knapp, former Secretary of State, on charges of grand larceny growing out of her administration of the 1925 State census, reported a disagreement at midnight and was discharged by Supreme Court Justice Callaghan.
Justice Callaghan set May 21 for the start of a new trial on the same charge, that of misuse of a \$2875.06 pay check drawn to Mrs. Knapp's stepdaughter, Clara B. Knapp, and cashed by Mrs. Knapp.
The jury was reported to have stood seven to five for conviction almost from the start of deliberations.
Judge Makes Significant Plea.
Supreme Court Justice Callaghan in his charge made what many considered a highly significant plea.
"I know nothing worse," he said, "than for 12 men who have sworn to do their duty to render a verdict that does not speak the truth. It has a bad effect. This defendant knows now whether she is guilty or not. Anything you do won't fool her, so you can see what effect it will have if you return a verdict that does not speak the truth."
"You can't be interested in the result of your verdict. The law has given the court a wide discretion. If any punishment is to be administered, if any whatever, it depends upon the court. You do your duty, you do justice, do right, satisfy your conscience as to the facts. That is all you have to do."
No Favor on Grounds of Sex.
Justice Callaghan told the jurors that they should not be influenced by the fact that the defendant was a woman.
"A juror may not be chivalrous at the expense of violating his oath or to dodge the responsibility which he has assumed," he said. "The fact that the defendant held one of the highest offices in this State must not be considered by you and it must not affect your verdict. The defendant is entitled to no such consideration by you. She realizes that women have in recent years taken their place alongside of men in almost every field of endeavor. They are eligible to vote and for appointment or election to any office of public trust or confidence. They cannot share the privileges extended to them and be relieved of the responsibility."
The indictment on which Mrs. Knapp was tried charges specifically that she appropriated to her own use a census check for \$2875 made out to her stepdaughter for services the latter said she never performed but which Mrs. Knapp insisted on the witness stand she did perform.
"Both Can't Be Telling Truth."
"Clara Blanche Knapp and Mrs. Knapp can't both be telling the truth," Justice Callaghan told the jury. "Either Clara Blanche Knapp knew she had been appointed and did some work here or she did not know she had been appointed and did no work to earn that money. It is up to the jury to consider what their interests and perform an everyday task of determining whether people are telling the truth."
"What interest would Clara Blanche Knapp have in telling a story manufactured out of whole cloth? How did she impress you? How did the defendant impress you?"
"Clara Blanche Knapp is an instructor in Middlebury College. Consider whether she would come here and tell a false story when it is considered she has no interest in the case and got none of the money. When jurors are brought into the jury box they are not requested to check their common sense in the cloakroom outside."
H. C. Petring Estate \$135,625.
An inventory of the estate of Henry C. Petring, who died Dec. 23 last, was filed yesterday. It shows property valued at \$135,625, consisting of bonds and corporation stock. Mr. Petring bequeathed the bulk of his estate to two sisters, Augusta and Lisette Petring. He lived at 5159 Page boulevard.

HERE IS INSTANT RELIEF FOR DEAFNESS
Head Noises, Ear Aches
Roaring and hissing sounds, discharge, pains, sensitive and tender ears, all ear drum trouble. You will be surprised how quickly Aurine will help you. You may be a chronic long-time sufferer, you may have tried many things without relief, but do not give up hope before you know what Aurine Ear Balm can do for you. Dr. Edward Kolar, M. D., said, "Aurine helped cases I had given up as hopeless. A truly remarkable scientific remedy."
Stop paying high prices for earphones, stop buying expensive treatments and enjoy the glorious relief that more than 100,000 others have found in Aurine. A few drops in each ear and relief comes instantly. Mr. R. F. Maxwell, a well-known Deputy Sheriff, says, "Just started using my second bottle and am glad to state that I can now hear my watch tick. Today was the first time, this summer, I heard the church bell ring." No matter how stubborn or what your trouble is, you must try Aurine. No risk, no chance, no doubt, Aurine must do the work or cost you nothing.

Summer roundtrip fare from St. Louis to San Francisco **\$85.60**
See the Pacific Coast this summer! —make your headquarters at
San Francisco
America's coolest summer city
A vacation this summer with San Francisco as your base will yield you a double profit: rest and recreation for you and your family, and a broadened national viewpoint leading, perhaps, to greater personal Opportunity.
From now until September 30, return limit October 31, very low round trip tickets are being sold by the railroads. You can come by one line, return home by another. You can stop over anywhere. For very little more you can tour the whole Coast. Or you can come to San Francisco by comfortable steamer thru the Panama Canal, or by Victory Highway (U. S. No. 40).
San Francisco's picturesque hills, throbbing commerce, quaint foreign quarters, cosmopolitan cafes and hotels, and piquant "personality" have been themes of song and story for eighty years.
Every summer day is made for outdoor living. The mid-summer temperature at high noon averages only 65°. You'll want a light overcoat at night! Heat prostrations are unknown, and in summer it doesn't rain.
Golf on the glorious courses overlooking San Francisco Bay; tennis of championship calibre on the public courts; motoring to Yosemite, the Redwood
Great fishing! Empire, Lake Tahoe, the Big Trees, the Spanish Missions—you'll enjoy them all in this cool, invigorating climate.
San Francisco Bay offers some of the finest striped bass fishing in the world. Salmon and steelhead will give you a merry fight in many a convenient coastal stream. Near-by Monterey Bay offers salmon, sea bass and mackerel. Swift-plunging, wildly beautiful alpine streams of Coast Range and Sierra Nevada call to the eager trout fisherman. Camping is a joy in the 33,000 square miles of California national forests. Mountains and beaches offer good hotels; economical housekeeping camps and snug, picturesque resorts.
Please fill out the printed form and mail to Californians Inc., a non-profit public organization maintained solely to give authoritative information. You'll receive interesting travel literature; no charge.

GOOD-WILL TOUR FINDS KANSAS PROSPEROUS

St. Louis Jobbers Average 25 Calls Daily on Merchants on Trip.

By a Staff Correspondent of the Post-Dispatch.
MOPHERSON, Kan., May 9.—Delegates of the St. Louis Chamber of Commerce Good Will Tour today started on the third day of their friendly march through Kansas. Leaving Salina early, they went to McPherson where the business of calling on merchants began after the usual parade and band concert. Other places on the day's itinerary are Great Bend, Larned, the most Western point on the trip, Stafford and Hutchinson. The party will be entertained by the Hutchinson Chamber of Commerce tonight.

Many of the delegates are averaging 25 calls daily, although stops of not more than one to two hours are made at each of the five towns visited each day. Lionel Kalish, vice president of the Elder Manufacturing Co. and chairman of the tour, estimates that tonight when the halfway mark of the trip will be reached, the St. Louisians will have greeted more than 1000 Kansas merchants.

"Kansas appears destined to lead the procession of prosperity that is in store for the entire Southwest to which St. Louis is the natural gateway," Kalish said today. "Our neighbor on the West seems thoroughly awake to the part that we can play in aiding the development of that prosperity. Our delegates are renewing friendship with old customers of St. Louis industry, and are interesting prospective ones in the advantages of trade with us."

At Junction City yesterday, a goat viewed the parade with such marked interest that it was purchased as a permanent mascot. One of the delegates was moved by aching feet to buy a bicycle for marching purposes. He now rides in the parade just behind the goat.

Last night the St. Louisians were entertained at a banquet at the Salina Country Club by the Salina Chamber of Commerce. Tomorrow the homeward trek begins through Southeastern Kansas with Newton, Eldorado, Augusta, Wellington and Wichita to be visited. By tonight stops will have been made in 15 Kansas towns, leaving 16 yet to receive the representatives of the good will of St. Louis.

BURNED WHEN SMOKING IN BED

Robert Thomas, 52, Lights Cigarette and It Starts a Fire.
Robert Thomas, 52 years old, was seriously burned at 1:30 p. m. yesterday, when he fell asleep while smoking a cigarette in bed.

His room is at 704 Chouteau avenue. The bed caught fire from the cigarette.

STABS CHAUFFEUR DURING ROW

Matthew Rogaschuk, 20 years old, a chauffeur of 1411A Park avenue, was stabbed in the right shoulder and lung at 11 o'clock last night by George James, 19-year-old Negro of 3403 LaSalle street, in a quarrel at Jefferson and Chouteau avenues.

James admitted the stabbing.

CARDINAL

Gracious WORKMAN GETS HIM UP TO NOSE OUT FALSE PRIDE

By the Associated Press.
JAMAICA, N. Y., May 9.—F. W. Barlow's Gracious Gift with "Sonny" Workman up, won the Newton claiming handicap, feature of the race card here this afternoon. His margin of victory was very small and the result was in doubt until the numbers were hung out.

False Pride landed second money, with Tiffin third. The time was 1:14 and the race carried a net value of \$325.

False Pride, suddenly finding his racing legs, dashed to the front and led the field a merry clip to the stretch, where Workman began to send Gracious Gift along. The gelding closed fast and gained the purse in the last stride by a nose.

False Pride took the place by two lengths.

The backers of Altimeter in the first race, had a real thrill when Ratti, who rode Mel Foo, led a claim of foul against the winner, which was ridden by J. J. McTague. Ratti and McTague were both questioned by the stewards, who later announced the finish stood. The placing was Altimeter, first, Mel Foo second and Kopeck third.

The interference was said to have occurred in the final sixteenth, when McTague allowed his mount to avert toward the rail, forcing Ratti to take up Altimeter, then drew away to win by a length and a half.

Fred Johnson's Regatta, favorite, won the second event by a nose from Dolan, with Vacation third. Dolan made all the running but in the stretch Regatta came back and won by a nose.

Nuskan made a show of the field in winning the third, a six-furlong sprint. "It was a heavy weight handicap and he carried 132 pounds and made every pace a winning one." Indian Love Co. was second and Sandy Took. Old Nuskan rushed right to the front and quickly opened a wide lead. He was never let down and won by six lengths.

Mrs. Louise Vinn's Mockery was the fifth easily from Campanella with Chantry third. The start was bad. Mockery was away flying. Baker, who had the mount, must let her stop. She made all the pace and won by a length and a half.

By the Associated Press.
NEW YORK, May 9.—Tommy Loughran, world's light-heavy weight champion, signed this afternoon with Promoter Humbert V. easy to defend his title against L. Lomski of Aberdeen, Wash., in 15-round match at Elberta Park, Brooklyn, Wednesday, June 6. Lomski already was signed.

Gracious Gift Wins Newton Handicap at Jamaica

WORKMAN GETS HIM UP TO NOSE OUT FALSE PRIDE

JAMAICA, N. Y., May 9.—F. W. Barlow's Gracious Gift, with "Sonny" Workman up, won the Newton Handicap, feature of the race card here this afternoon. His margin of victory was very small and the result was in doubt until the numbers were hung out. False Pride landed second money, with Tiffin third.

The time was 1:14 and the race carried a net value of \$325.

False Pride, suddenly finding his racing legs, dashed to the front and led the field a merry clip to the stretch, where Workman began to send Gracious Gift along. The gelding closed fast and gained the purse in the last stride by a nose.

False Pride took the place by two lengths.

Claim of Foul Disallowed.

The backers of Altimeter in the first race, had a real thrill when Ratti, who rode Mel Foo, lodged a claim of foul against the winner, which was ridden by J. J. McTague. Ratti and McTague were both questioned by the stewards, who later announced the finish stood. The placing was Altimeter, first, Mel Foo second and Koepck, third.

The interference was said to have occurred in the final stretch, when McTague allowed his mount to swerve toward the rail, forcing Ratti to take up. Altimeter then drew away to win by a length and a half.

Fred Johnson's Replevin, favor, it, won the second event by a nose from Dolan, with Vacation third. Dolan made all the running but in the stretch Replevin came fast and won by a nose.

Nuskan by Six Lengths.

Nuskan made a show of this field in winning the third, a six-furlong sprint. "It was a high-weight handicap and he carried 122 pounds and made every pole a winning one. Indian Love Call was second and Sandy Took third. Nuskan rushed right to the front and quickly opened a wide lead. He was never let down and won by six lengths.

Mrs. Louise Vian's Mockery won the fifth easily from Campanella, with Chantry third. The start was bad. Mockery was away flying and Baker, who had the mount, never let her stop. She made all the pace and won by a length and a half.

Brown's Game Is Called Off On Account of Rain

PHILADELPHIA, May 9.—Today's game between the Browns and the Athletics was called off because of rain.

GRANVILLE LEADS PYLE'S RACERS INTO BUTLER, IND.

BUTLER, Ind., May 9.—Phillip Granville, Canadian champion pedestrian, was the first transcontinental footrace to reach here today after traversing the 41.8 miles from Ligonier, Ind., in 5:36:22.

Granville, fourth in the Derby field of 61, has covered 2579.7 miles in 460:44:06.

John Sato, Passaic, N. J., holder of third place, finished second for the day in 6:01:55. His elapsed time was 452:53:23. Guvazzi, leader of the race; Payne in second, and Louis Perrella of Albany, who is ninth, ran a dead heat for third place today in six hours, 20 minutes and 24 seconds. Guvazzi's elapsed time of 421:02:06, retains his lead of six hours, nine minutes and 23 seconds over Payne, whose time was 427:11:23. Perrella's elapsed time was 434:45:13.

WRESTLERS TO HOLD BENEFIT PROGRAM FOR GEORGE TRAGOS

A benefit wrestling show for George Tragos, who is recovering from an attack of blood poisoning, will be held at the Cherokee Theater, Saturday afternoon, starting at 2:30 o'clock. There will be six bouts on the program and among the contestants will be Jimmy Reynolds, Gene Ledoux, Tommy Marvin, Frank Nelson and others.

Tragos, who was due to an infection in his right knee, caused by a "mat burn" or abrasion from contact with the canvas.

SHARKEY MATCHED WITH LARRY GAINS AT MONTREAL MAY 23

TORONTO, May 9.—Larry Gains, heavyweight champion of Canada, has been matched to meet Jack Sharkey, the Boston heavyweight, at Montreal on May 23.

Wheat Wins Shoot.

ROCKFORD, Ill., May 9.—Glen Wheat, Prophetstown, Ill., was the winner in Class A and Leo Michale, Rockford, in Class B in the Alex. Vance League's trapshooting tournament. Wheat broke 149 out of 150 targets and Michale 141. Gene Pope, Moline, was first in the 50 target handicap with 49.

AUSTRALIA IS ELIMINATED IN CUP NET PLAY

By the Associated Press.
GENOA, Italy, May 9.—Australia was eliminated from the 1928 Davis cup competition in the first round today by Italy when Baron de Mompurgo defeated Gerald Patterson, the veteran Australian star, in a five-set thriller, 1-6, 6-4, 6-3, 2-6, 6-1. This gave Italy the third and deciding victory of the series.

Italy clinched the series by taking three of the first four matches, dividing the opening two singles encounters and winning the doubles yesterday.

Baron de Mompurgo is the hero of Italy's surprising victory, figuring in all three of his team's triumphs. The titled Italian has been a conspicuous internationalist for the past five years. He led the team that gave France such a close call in the preliminaries last year, in fact a closer call than the French had in taking the Davis Cup from the United States in the challenge round.

Australia, returning to the cup competition after a lapse of two years, is eliminated in the first round for the first time since becoming one of the leading tennis playing nations of the world.

The Australians have reached the challenge round in 11 of the last 14 times they have entered the competition. They won the famous tennis trophy six times and because of the long lapse during the war actually held it longer than any other nation.

Italy's next opponent will be Romania, on the strength of their showing against the Australians. However, the Italians now have the prospect of sweeping through the final round of the European zone and gaining the right to meet the American zone winner, probably the United States, for the right to challenge France. Experts had picked the Australia-Italy survivor as the European finalist.

GIANTS RETAIN FIRST PLACE BY DEFEATING PITTSBURG, 6 TO 0

PITTSBURG, May 9.—The Giants saved first place for themselves today by defeating Pittsburgh, 6 to 0, in the second game of the series. Barnes held the Pirates hitless for five innings and gave only five hits altogether. The Giants bunched safeties off Dawson and Brane.

MEHLHORN, 71, TAKES LEAD IN BRITISH GOLF

AMERICANS' SCORES IN FIRST ROUND

Bill Mehlhorn, 35-36—71.
Gene Sarazen, 35-37—72.
Walter Hagen, 37-38—75.
John McHugh, 35-41—79.
Tommy Armour, 39-42—81.
Jim Barnes, 41-40—81.
Bob Stuppel, 41-41—82.
—Amateur.

SANDWICH, Eng., May 9.—Bill Mehlhorn, scoring 71, led the field in the first round of the British open golf championship and Gene Sarazen, another American pro, was second with 72. Third place went to Jose Jurado, Buenos Aires, with 74. The British were forced to be satisfied with fourth place and even there an American, Walter Hagen, was in a tie with several of the home hopes, at 75.

Archie Compston, George Duncan, Sid Wingo and Perry Allis also scored 75.

Championship play was started in cold, raw weather and there were many 80's on the board tonight. Three American pros were in this classification, Tommy Armour and Jim Barnes at 81 and Bob Stuppel, 82.

Johnny McHugh, San Francisco, scored 79 and tied with T. A. Torrance, Scotch amateur, for the low score of the day for the amateurs.

Abe Mitchell, long hitting British professional, and a ranking favorite to win the championship, took 75 on his first round as did Harry Vardon. Thomas Barber was the low scorer among the first few British representatives to finish with 77.

Spectators seeking shelter from the biting cold of the wind-swept course came tumbling from cover greatly excited when a report was circulated that George Duncan needed 3-4 to tie for 70. But something had gone wrong with the mercury. Scott and he finally came home from the long finishing holes needing 4 for 74. He took five and went into at least a temporary tie for third place, Ted Ray, playing with him, took 77.

Arthur Havers, former champion, took 81. Ernest Whitcombe 82 and Charles Whitcombe 84. Roger Wethered, former amateur champion, and George Gadd finished in 73.

T. A. Torrance, Scottish amateur, who led the amateurs in the qualifying rounds, took 75 today, the score returned by the California amateur, Johnny McHugh.

Three well-known British pros, Harry Boomer, Fred Robson and James Braid, had the same score, 79.

Douglas Grant, the former California amateur now living in London, took 80. Percy Allis went into a tie with Hagen, Compston and Duncan at 75.

REDS BUNCH HITS OFF GENEWICK TO DEFEAT BOSTON BRAVES 4-1

By the Associated Press.
CINCINNATI, May 9.—The Cincinnati Reds made it two straight from Boston by bunching hits on Genevick to win 4 to 1 today.

KURZ ELECTED CAPTAIN BEARS' BASKET TEAM

Ralph Kurz, star guard on the Washington University basketball team for the past three seasons, was elected captain of the team for next year by the unanimous vote of lettermen. It was announced today by A. E. Eilers of the athletic department. Kurz's defensive work gained him honorable mention on the All-Valley basketball team last season.

Blitman Triumphs.

YOUNGSTOWN, O., May 9.—Harry Blitman of Philadelphia beat Billy Grime, Australia featherweight champion, in a one-sided 12-round bout last night. Fatsy Gallagher, Pittsburgh featherweight, and Frankie Rio, Cleveland, boxed a six-round draw.

He Leads in British Open

BILL MEHLHORN

The Washington U. baseball team met the Missouri U. aggregation this afternoon at Liggett field in a Missouri Valley game, and the battling of the first three innings indicated that the game would be close. Neither team scored in the first three frames.

VON ELM AND FOUR TOP BRITISH GOLFERS ENTER NATIONAL OPEN

By the Associated Press.
NEW YORK, May 9.—George Von Elm of the Rancho Golf Club, Los Angeles, national amateur champion in 1926, has entered for the national open golf championship and will play in the qualifying rounds on June 11 at the Country Club of Detroit.

The United States Golf Association has received word that Britain's greatest shotmakers—Archie Compston, Abe Mitchell, George Duncan and Aubrey Boomer—will tee up at Olympia Fields, Chicago, on June 21 for the championship rounds. The U. S. G. A. has set aside 10 places for foreign entrants without compelling them to qualify. Australia will be represented by Rufus Stewart, present open and professional champion, and the British amateurs will have R. E. Burton of the Royal Wimbledon Golf Club of London as their entry.

Last year 335 entries were received for the qualifying tests, in 17 cities throughout the country and it is expected that the entries this year will exceed that number.

HARRY MCCARTHY MOVES TO SELL HIS SOCCER CLUB

A change in team ownership will be made in the St. Louis Soccer League, it has been learned. Harry J. McCarthy, who has for the past 19 years controlled a franchise in the league, will sell out to Dr. John J. Kehoe, according to a reliable informant. An agreement has been reached between McCarthy and Dr. Kehoe regarding the purchase price and the prospective purchaser has posted earnest money, it is reported. McCarthy is at present out of the city and Dr. Kehoe could not be reached for a statement.

Succeeded Brannigan.

McCarthy entered professional soccer as a club owner in 1918, succeeding Richard Brannigan in control of the St. Louis Brannigan, upon his return from military service, protested McCarthy's right to ownership of the franchise, but the St. Louis Soccer League supported McCarthy. Since that time, McCarthy's club has borne several titles, of an advertising nature, finishing up last season as the Morgan Haulers.

Dr. Kehoe has been in close touch with the soccer game since his days in school. It is not likely, however, that he will take active charge of the team management. It is probable that he will appoint an experienced manager. He is related to Harry J. Ratican.

Ready for Heidelberg.

At Sherman Park Community Center last night the St. Louis Olympic soccer squad, with a few changes, reported to the coaches and opened training for their game at Pittsburg on May 26. Three practice sessions will be held each week. Their opponents at Pittsburg are the Heidelberg Club, which was defeated here in an Olympic test game, 2 to 1. George McGann and Francis Hartigan have been added to the original squad and "under" present players will play center forward in place of Jim Cronin, who is on the U. S. Olympic team with John Ruder, John Kane and Joe Murphy.

HIGH POLES TRIPLE, DOUBLE AND SINGLE; LITTLEJOHN PITCHES

By J. Roy Stockton
Of the Post-Dispatch Sport Staff.
SPORTSMAN'S PARK, May 9.—The Cardinals chalked up another victory over the Phillies this afternoon, their second in the series and their fourth in the last five games.

The score was 7 to 1.
Walter Rottger is still suffering from a charley horse and Ray Blades again was in right field. Today was "Johnny Schulte's day" and the former Cardinal catcher was honored by the North and South St. Louis Kiwanis Clubs. Flowers were presented and Irish songs were sung.

The game:
FIRST INNING.
PHILLIES—Sothern lined to Douthit. High threw out Thompson. Leach lined to Blades. NO RUNS.

CARDINALS—Douthit walked. High singled off Ring's glove. Frisch doubled to left center, scoring Douthit and High. Bottomley singled to right, scoring Frisch, and on the throw to the plate Jim took second. Hafey was safe on Sand's fumble. Bottomley holding second. Blades was called out on strikes. Bottomley went to third on Mancuso's sacrifice fly to Wrightstone. Thevenow singled to center, scoring Bottomley. Ring threw out Littlejohn. FOUR RUNS.

SECOND INNING.
PHILLIES—Schulte flied to Douthit. Wrightstone grounded to High. Frisch threw out Frberg. NO RUNS.

CARDINALS—Douthit flied deep to Leach. High grounded to Thompson. Frisch singled to right. Frisch was picked off first. Ring to Kelley to Sand to Kelley to Thompson. NO RUNS.

THIRD INNING.
PHILLIES—Sand was called out on strikes. High threw out Kelley. Ring struck out. NO RUNS.

CARDINALS—Bottomley flied to Sothern. Hafey walked. Blades again was called out on strikes. Mancuso forced Hafey, Sand to Thompson. NO RUNS.

FOURTH INNING.
PHILLIES—Sothern was called out on strikes. Thompson's single was too hot for Frisch. Leach singled off Bottomley's glove. Thompson stopping at second. Schulte popped to High. Frisch threw out Wrightstone. NO RUNS.

CARDINALS—Thevenow doubled to left. Littlejohn struck out. Douthit singled to center. Thevenow being out at the plate. Sothern to Schulte. Douthit taking sac on the play. High tripled to left, scoring Douthit. Frisch bunted and was thrown out by Frberg. ONE RUN.

FIFTH INNING.
PHILLIES—Friberg fouled to Bottomley. High threw out Sand. Kelley walked. Ring forced Kelley. Thevenow to Frisch. NO RUNS.

CARDINALS—Bottomley walked. Hafey hit a home run in to the left field bleachers, scoring behind Bottomley. Blades struck out. Mancuso was called out on strikes. Thevenow flied to Sothern. TWO RUNS.

SIXTH INNING.
PHILLIES—Sothern bunted safely down the third base line. Thompson doubled to center, scoring Sothern. Littlejohn threw out Leach. Thompson taking third. Schulte fouled to High. Frisch threw out Wrightstone. ONE RUN.

CARDINALS—Littlejohn grounded to Sand. Douthit popped to Kelley. High doubled to right center for his third hit. Frisch grounded to Thompson. NO RUNS.

SEVENTH INNING.
PHILLIES—Friberg walked. Sand flied to Douthit. Kelly popped to Frisch. Williams batted for Ring and walked. Sothern fouled to High. NO RUNS.

CARDINALS—McDraw went to pitch for the Phils. Bottomley lined to right. Friberg threw out Hafey. Blades walked. Thompson dropped Mancuso's pop fly but Sothern recovered the ball in time force Blades with a throw

EIGHTH INNING.
PHILLIES—Thompson batted out a grounder to High. Leach singled to left. Thompson stopping at second. Schulte lined to Frisch. Wrightstone hit into a double play Frisch to Thevenow to Bottomley. NO RUNS.

CARDINALS—Littlejohn rolled to Thompson. Douthit walked. Sothern made a fine running catch of High's line drive to right center. Sand threw out Frisch. NO RUNS.

NINTH INNING.
The Phillies failed to score.

St. Mary's Kirk Is Race Winner

CHESTER, Eng., May 9.—St. Mary's Kirk, by Sir Douglas out of Gay Goshawk, owned by Sir Hedyorth Meux, won the famous Chester Cup today. S. Woolton's Dakota was second and A. R. Cox's Gioconda was third. Seventeen ran.

FLENNIKEN NAMED GENEVA GRID COACH

BEAVER FALLS, Pa., May 9.—Mack Flenniken, formerly of Centenary College, Shreveport, La., but for the past two years a star backfield man at Geneva College, has been named head football coach at Geneva for two years. He succeeds Alvin (Bo) McMillan, who resigned to accept a berth at the Kansas Teachers' College.

GERMAN WOMAN SETS NEW SWIM RECORD

MAGDEBURG, Germany, May 9.—Fraulein Hilde Schrader established a new world's record for women here last night by swimming 400 meters breast-stroke in 6 minutes 46.4 seconds. The previous record of 6 minutes 54.4 seconds was held by the Dutch swimmer, Marie Baron.

POWER TO MEET CHICAGO BOXER ON MOTORBUS FIGHT CARD, TONIGHT

FORMER DISTRICT LEADER TO TURN PRO AFTER BOUT WITH JACK ROSS

By Damon Kerby.

Frank Power, Western A. U. middleweight champion for five consecutive years, will make his last appearance as an amateur tonight when he opposes Jackie Ross of Chicago in the final event of the Motorbus boxing card at the Armory, Grand boulevard and Market street. He has announced he will turn professional as soon as he receives a suitable offer.

Power lost the middleweight crown in the district meet this spring to Al Stillman, who later punched his way to a place in the United States Olympic boxing team in the national tournament at Boston.

In leaving the amateur fold, Power will follow the footsteps of Dave Knott, national amateur heavyweight champion in 1927, and Knott's success in his first appearance as a professional on the last boxing card at the Coliseum may have influenced Power in taking the step. He believes he should be able to cash in on the reputation he built up here in amateur circles during the past five years. His most decisive defeat was at the hands of Stillman, prior to the district meet. Stillman knocked out Power in a one-sided bout.

In Ross, he will meet an aggressive foe who forced Stillman to go an extra round in order to get the decision in their bout at the national tournament. Stillman's margin of victory was close.

Four other special bouts are on the program and 16 entries have been received for pairings in the preliminary events.

SPECIAL BOUTS.
Frank Power, South Broadway A. C. vs. Jackie Ross, Chicago; 3 rounds; middleweight.
John Schwake, South Broadway A. C. vs. Jack Decker, St. Louis; 3 rounds; heavyweight.
Fai Colney, East St. Louis A. C. vs. Al Herbert, Kansas, St. Louis; 3 rounds; welterweight.

135-pound class—Willie T. Ford vs. John Decker, St. Louis; 3 rounds; welterweight.
145-pound class—Tommy Wade, 13th Infantry vs. John Decker, St. Louis; 3 rounds; welterweight.

CENTRAL ILL. BOYS
22 BASKET GAMES
CENTRAL ILL. May 9.—Twenty-two basketball games, evenly divided at home and abroad, will be played by Centralia High School's quietest next season. Three of the teams were not included in last season's schedule, Vandalla, Effingham and Olney.

JENNINGS NINE BEATS EUREKA (MO.) TEAM
The Jennings High School nine triumphed over Eureka (Mo.) High on the home diamond yesterday, 5-3.

PESEK'S APPEARANCE AS BOXER FOILED BY PROMOTER TOM PACKS
JOHN PESEK'S appearance as a boxer in next Tuesday night's inaugural card of the Edward Walker Legion Post has been called off through the action of Tom Packs, wrestling promoter, it was announced today by Matchmaker, Charlie Straus. The "Tiger Man" of the mat world was to have met Rocco Stramaglia in a 10-round set at the Battery A arena, the main go of the evening being between Chuck Wiggins and Jack De Mave.

Cancellation of the Pesek match followed Packs' threat last night to resort to legal means to prevent the bout. Packs has a 20-year contract with the Yobnaskan, giving the St. Louis impresario exclusive right to his ring services at any point within 100 miles of this city. The agreement has 16 years yet to run.

Matchmaker Charlie Straus has signed Eddie Goldberg and Rocco Stramaglia to fight for a contest of 10 rounds at 125 pounds. In a third bout of similar length Meyer Grace, Chicago welterweight, is to meet Tony Ross, Pittsburgh bantam. Matches of four and six rounds are planned to complete the bill.

CHURCHILL DOWNS CHARTS

Weather clear; track fast.

LOUISVILLE, Ky., May 9.—Following are the results of today's races:

FIRST RACE—2:20. Allowances, 2-year-olds, maidens, colts and geldings, four and a half furlongs. Start good; won driving, place same. Went to post 2:07. m.; at post 2 minutes. Winner, h. c. by Royal Lancer-La Prairie, Trainer, M. Dumell. Time, 2:20.5. Value to winners, \$800, \$200, \$100.

HORSE	WT.	PP.	ST.	4	Str.	Fin.	Jockey	Equivalent
Prince Pat	116	1	2	3	1	1	W. Dello	2:20.5

WIGGINS MUST GET DOWN TO 185 FOR DE MAVE GO

By Dent McKimming.

Jack DeMave, the Holland Dutchman, who is coming here from New York to engage that bad boy of the ring, Chuck Wiggins, in the feature event of the Edward Walker Post program next Tuesday, has wired Matchmaker Gene Straus requesting that he get all the available local heavyweights in the gymnasium Friday and Saturday for workouts.

"All the available local heavies" probably will not bring in much talent, but Straus says he will try to get Dave Knott, Jack Adams, Joe Baker and others to trade punches with DeMave.

Must Get in Condition. Billy McCarney, who has been managing boxers as long as Connie Mack has been running a baseball club, will bring DeMave here from New York.

Wiggins is under contract to get himself into good shape for the bout, Straus declares. "We have his forfeit of \$250 guaranteeing that Wiggins will get down to 185 pounds," said Straus. "If he makes that weight he will be at his best physically and then he should put up a real fight."

Straus disclosed that he is playing DeMave a larger guarantee than has been paid any fighter who has appeared on a local card in the past four years, during which period St. Louis has seen Jack Renault, Joe Dundee, Sid Terris, Phil Rosenberg, Phil Kaplan and other top notches.

DeMave and McCarney will leave New York tomorrow at noon and will arrive in St. Louis Friday.

ONE KILLED, 26 HURT WHEN ELECTRIC TRAINS COLLIDE
Engineer, Slowly Burning to Death, Asks for Someone to Shoot Him to End Sufferings.
By the Associated Press.
HAZLETON, Pa., May 9.—Harry Cunius, 45 years old, engineer on the Wilkes-Barre & Hazleton Railway, was killed and 26 passengers injured yesterday in a head-on collision between two high speed electric trains at St. Johns, nine miles north of this city.
Cunius is said to have overruled a switch at which point his train should have taken a sidetrack to allow a southbound train to pass. He was pinned in his steel cabin and was slowly burned to death by heavily charged wires snapped by the wreck. He begged for someone to shoot him to end his suffering. Both cars were destroyed by the fire.
The injured were cared for in nearby fields by doctors called from Hazleton until the railroad company made arrangements for special cars and busses to carry them to the state hospital at Hazleton.

Government Convinced that Compromise on Kellogg and Briand Plans Is impossible.

TEATES CRISIS IN FOREIGN POLICY

Decision on Which Way England Will Lean Is Expected to Have Far-reaching Effects.

JOHN L. BALDERSTON, Staff Correspondent of the Post-Dispatch and New York World.

Paris, May 9.—The Kellogg-Briand pact, which was signed in London, May 9, has been shaken of its assumption that Sir John Chamberlain could mediate the difference between France and the United States over the Briand-Kellogg pact.

Of Making Many Books

JOHN G. NEIHARDT

Very Scientific
NEW CRIMINOLOGY. By G. Schupp and Edward J. (Boni and Liveright.) A blessing that the authors of the question of free will by denying free will. So written and entertaining is it that no effort of what we have in place of a will is read it. The thesis, everything from an argument to a bridge game to burning orphans, is due to the author's denials. It is not convincingly, but it is not that any and every crime is due to the endocrine or what you are taking in entirely too much territory. The hyper-thyroid is practically immune from crime. He is nervous, emotional, unstable, likely to interrupt the conversation, heard your best conversation two months ago, and tells you he never gets his name in the police blotter. The hyper-thyroid marries late in life, trusts his wife, and votes the Democratic ticket. The hypo-thyroid is likely to cause any trouble. The normal types are the trouble makers. If their misfortunes were magnified, even the amateur would see at once that they will be a bad end. But their plagues never come singly, glances troubles included. Get a hyperthyroid in the neighborhood and interstitials are not all that they should be and whose supra-renal glands are in for one big night, and a city is in for a crime wave. The hyper-thyroid poses as the priest of law, medicine, penology, and the selection of a jury, one hyperthyroid is induced to tell psychiatry to go and a sensational murder trial. So as methods go, the new criminology has nothing on the old. The first must catch your eye. Perhaps if the old criminology were to make a concerted effort in that direction, the new criminology would not be needed. Smith's dream of what a world this will be when psychiatry has labeled, cross-indexed, filed our glandular potentialities and incorporated such of us as show glandular-chemico-hereditary tendencies exceeds the wild fancies of Jules Verne or H. Wells. Maybe psychiatrists are hyperthyroids. You know hyperthyroids are nice. J. D. H.

NOVELIST'S TOUR OF THE WORLD.

By Blasco Bianchi.

THE LAND OF ART. By Blasco Bianchi.

BLOOD AND SAND. By Blasco Bianchi.

ONE wishing to get a fairly clear conception of the personality and maximum power of the late Blasco Bianchi by reading only two of his books would do well to choose "Sonnicca" and "A Novelist's Tour of the World." The former, which appeared in America 16 years ago, is easily his most powerful novel, though it failed to "catch" over here. The "Tour of the World," issued in 1926, is full of the man's personality, and makes fascinating reading. The two other volumes listed above are both reprints. "In the Land of Art," having appeared first in 1924, and "Blood and Sand" in 1912. The former is a work of the author's young manhood, being the result of a trip to Italy in 1906.

TESTS OF A FOREIGN GOVERNMENT BOND. By Ernest Minor Patterson. Ph. D. Professor of Economics in the University of Pennsylvania and Vice President of the American Academy of Political and Social Science. (Payson & Clarke.)

The author, who is one of the foremost specialists in the field of economic research, has made special studies of the Russian and German economies.

RUSSIAN CHORUS HEARD IN SUPERIOR PROGRAM

Singers From St. Michael's Church in Fine Concert Under Direction of Parish Priest.

The concert given last night at Sheldon Memorial Auditorium by the choir of St. Michael's Russian Orthodox Church proved to be one of the most successful of the season. The choir, under the direction of Father Joseph Hunchuk, the priest in charge of the church, sang hymns of the Russian church and added a slightly unusual touch by doing a few Russian dances.

The ensemble reflects the patient and intelligent direction of its leader, and the enthusiasm of its members. It is not quite seven years old but its attacks and releases, the careful phrasing of the song, and the wealth of intelligent feeling that was employed all gave it a belated professional finish.

The choir was particularly effective in Rimsky-Korsakov's setting of the Lord's Prayer and the Russian song "The Cossack Crossing the Danau."

German Lecturer to Stanford.

By the Associated Press.

HAMBURG, Germany, May 9.—Prof. Robert Petesch, director of the Germanistic Seminary of the University of Hamburg, has been invited to give a course of Germanistic lectures at Stanford University during the summer of 1929.

American Flyer Crosses Andes.

By the Associated Press.

BUENOS AIRES, May 9.—James A. Doolittle, American aviator, landed here yesterday after a flight of 775 miles from Santiago, Chile, in about five hours. He crossed the Andes Mountains.

Dean of the school of engineering at the University of Pittsburgh, Pa., but a prediction of a winter season.

NOTE ON KNIGHTHOOD.

Neath the evening sky in the days gone by, did the knights go sighing for a lady's hand in the manner grand. And vow a love undying.

By St. George he swore, did the knight yore.

His heart was hers for taking.

Did she say him "Nay," to his dying day a fond heart she was breaking.

is the evening falls on the city walls, the modern knight goes driving on the same sweet quest at the heart's behest.

or maiden's hand he's striving; did a knight come back through the year long track.

he course of ages ranging, he would sadly vow it was that as now love's lies remain unchanged.

We are working around to the past where we believe that a press censorship established in the Balkan crisis because one knows how one of those things turn out.

Occasionally you see a suit of cloth that looks as though it had been selected a blindfold test.

A hick town is one where postal carriers of the main street are not obtainable.

What About Minnows?

The conversation had turned to fishing. One of the ladies said, "I like fish, but I can't catch them. I can't catch with, 'I like cardines myself.'"

—The King's Benchman.

Imaginary Conversations.

First Golfer: What's par for the course?

Second Golfer: Why?

The Lieutenant-Governor of Illinois links that if the convention develops a deadlock between Hoover and Lowden, Colledge may be nominated. This seems to me opinion unanimous on the Curtiss team.

A late spring can delay a garden almost as much as the average man's effort in tending the garden.

Dr. Stephen Corey notes a spirit of nationalism springing up in the Chinese and such foreigners as remained in China.

Chicago might be said to be the place where, if the enemy is not eliminated automatically, a machine gun is used.

Problem in railroad finances: Saving for the summer vacation.

When one of the Indiana crowd runs record, we presume that he is careful state just which record he means.

Prohibition did away with the nineteenth century for some golfers, and the game came for the other eighteen.

The dean of the school of engineering at the University of Pittsburgh, Pa., but a prediction of a winter season.

STUDENT'S BODY RECOVERED

Found in Mississippi Near Herculaneum, Mo.

The body of Joseph Steinlage, 23 years old, St. Louis University medical student who was drowned in the Mississippi River April 25,

was recovered today near Herculaneum, Mo. Steinlage, who lived at 2550 North Grand boulevard with his parents, Dr. and Mrs. August A. Steinlage, asked Edward Bleil, 4404 West Pine boulevard, for a ride in Bleil's motorboat. The boat capsized. Bleil was rescued.

BOY AND WOMAN KILLED BY AUTOS; TWO OTHERS HURT

Miss Mary J. Owens Was Returning From Home of Friend Who Had Died When Struck by Machine

Manuel Merrins, 5-year-old son of Benjamin Merrins, 3632 Dodder street, died early today at Mulhanney Hospital of injuries suffered yesterday at 2:40 p. m. when he was run down in the street in front of the Merrins home by an automobile driven by Joseph Lupo, a service car driver of 1933 O'Fallon street.

Returning to her residence at 5150A Minerva avenue after a visit to the home of a friend who had died, Miss Mary J. Owens, 47 years old, a seamstress, was killed at 10:45 p. m. yesterday by an automobile on Kingshighway boulevard near Westminster place.

Charles B. Gilder, 24, of 5569 Pershing avenue, driver of the machine, said she became confused in trying to work her way through the heavy motor traffic and walked into a rear fender of his car after he had swerved to avoid her.

Roller Skater Hurt in Crash. Rodney Peters, 37, of 2651 Lindell boulevard, former world's champion roller skater, suffered a fracture of the right arm and internal injuries when his machine hit an automobile driven by George W. King of 4510A Maffitt avenue at Twenty-third and Olive streets at 2 a. m. today. Miss Nellie Strode, 38, of 2641 Eads avenue, a passenger in King's machine, was cut and bruised.

Investigating the theft of an automobile stolen Sunday from the downtown district, police yesterday found that it had been wrecked at the foot of a 30-foot embankment on the Meramec River at Levee Ferry road, and yesterday questioned George Welsh of 1316 Seventh boulevard, who admitted he had been seriously cut and bruised when the machine ran down the bank. He said he had been invited on the ride by a man known to him as "Duke" who is sought as the auto thief. Welsh said he did not know the car was stolen.

Wellston Dog Track Hearing Continued Until May 29. Two Testify, 12 Witnesses, Including Owners, Fail to Appear at Mexico, Mo. By a Staff Correspondent of the Post-Dispatch.

MEXICO, Mo., May 9.—Testimony in the State ouster suit against the Wellston Kennel Club of St. Louis County was continued until May 29 after two witnesses had testified here yesterday before Robert D. Rodgers of Mexico, special Supreme Court commissioner, and 12 other witnesses had failed to appear.

State Attorney-General Gentry and Prosecuting Attorney Mueller of St. Louis County, who participated in the hearing at Mexico, Mo., conferred in Clayton today, and are preparing a petition to enjoin the Ramona Kennel Club of St. Louis County from continuing its gambling and races.

With them were C. C. Miles, president of the St. Louis County Bankers' Association; Eugene D. Ruth Jr., Mayor of University City, officer of the League of Municipalities and president of the County Chamber of Commerce, and Jefferson D. Smith, secretary of the chamber.

Afterward Miles told reporters dog racing and gambling had had a noticeable effect on bank deposits and on business in general. Mueller said the injunction petition would be filed by Saturday.

FATHER F. P. HAGEMANN DIES. The Rev. Frederick P. Hagemann, S. J., who for 15 years was spiritual director to the faculty and theologians of St. Louis University, died yesterday at St. Stanislaus Seminary, Florissant, from the infirmities of age. He was 85 years old.

Father Hagemann came to St. Louis from Milwaukee nearly 50 years ago as pastor of St. Joseph's Church, Eleventh and Biddle streets. He became associated with St. Louis University in 1903 as spiritual director, and remained in that capacity until 1923. He spent his declining years at St. Stanislaus Seminary, where funeral services will be held Friday morning.

25,000 TREES PLANTED AS MEMORIAL TO A. G. COCHRAN

Tribute to Late St. Louisan Is Arranged by Order of De Molay.

SPOKANE, Wash., May 8.—As a memorial to the late Alexander G. Cochran of St. Louis, first Grand Master Councillor of the Order of

De Molay, Masonic boys' fraternity, 25,000 Douglas fir trees are being planted this week in the Columbia National Forest in Southwestern Washington under auspices of the organization.

This was announced today by W. S. McCrea, member of the Grand Council. Cochran died a week ago in St. Louis.

Trees being planted this week comprise the second unit of the Washington De Molay Forest. The first unit, of 57,000 trees, was planted a year ago. Planting is by the Federal Forest Service, with trees provided by members of the order.

Mother's Day to Be Observed Sunday

Sunday, May 13th, will be observed as Mother's Day. The emblem to be worn on this day is the white carnation. It typifies the beauty, truth and fidelity of mother-love.

Mother would appreciate a gift of furniture more than anything else. Whether it be an inexpensive sewing cabinet or a comfy armchair for her room, the utmost in value is offered at the Prufrock-Litton Furniture Co., Fourth and St. Charles Streets.

Save 10% to 33 1/3% on quality furniture now during their 21st Anniversary Sale!

DIVERS FIND FLYERS' BODIES

Airplane Under 10 Feet of Water in Lake Erie.

By the Associated Press.

PORT ROWAN, Ont., May 9.—The bodies of the two occupants of the biplane which nose-dived in

to Lake Erie last Friday found yesterday by divers in the seats of the machine. While they are believed to be those of John Rosecrance and Lapey of Buffalo, the plane was found in 40 feet of water.

OBSESSION IS MAIN ISSUE IN CAMPAIGN, SAYS SENATOR BORAH

Continued From Page 19.

national convention to get rid of it. Colorado recently, the First Congressional District, reversed its allegiance and went wet. A sentiment in California is overwhelmingly wet except in the Angeles district. In Washington, where there is hardly any democratic party organization, Senator Jones dry Republican, within 13,000 votes of losing a comparatively unknown Democrat.

Repeal is sound in principle. It is sound in practical politics. It is where the votes are; it is on the other side. If one the other of the old parties does not come out for repeal, a certain party that will cut across the lines of the others and leave them in the lurch.

If would have the Republican in the Kansas City platform commit itself to asking the State legislatures to authorize a referendum on the eighteenth amendment. I am convinced that a 60-cent campaign conducted on high principles with stress laid on the question of governmental morality, would carry the day for repeal in 44 per cent of the States.

What the Democrats should do not for me, as a Republican, to say that if the Republicans pussyfoot on the issue while Democrats take the liberal line, the Democrats will elect the President.

We hear a great deal about the 00,000 Republican majority in the last election. It sounds formidable, but it doesn't assure Republican success in the future. The 00,000 La Follette vote must be forgotten. Moreover, it is the popular vote that counts in the electoral vote. If 105,000 had been shifted in the right direction in the last campaign, the election would have been thrown to the House of Representatives and no one can tell who would win.

Liberals talk too much about the difficulty of getting the eighteenth amendment repealed. The difficulty of it is no excuse for not doing. A defeatist attitude plays into the hands of the Anti-Saloon League. Let us hammer, hammer at the political parties, as the Post-Dispatch is doing, and ultimately the issue will be brought before the people and they will settle it.

VON HOFFMANN AIRCRAFT SCHOOL

Distributors of Ryan Monoplanes and Englebach Biplanes

105 SOUTH NINTH ST. MAIN 0080

Learn all about aviation from the Von Hoffmann Aircraft School which is now conducting evening classes on this new means of transportation.

Do you know—an airplane is lifted into the air by suction—although your motor may be "dead" when you are in the air that the plane can be landed just as safely—the higher in the air you are, the safer you are—that speed gives you better control of an airplane?

These are only a few of the many questions that will be answered for you in the classes conducted in the City Club Building, 11th and Locust, every Tuesday and Thursday evening, at 7:30 o'clock.

Enrollment open to both men and women over 16 years of age. Enroll now!

A LETTER from the BOARD of DIRECTORS of the Mercantile Trust Company

CLOSE and constant contact with the service given by the Mercantile Trust Company to its patrons enables us to see the real usefulness of that service, and prompts us to recommend it strongly to all St. Louisans who have not yet discovered its help and convenience.

Here, in the center of the business district, all of your financial requirements can be quickly and efficiently handled by an institution that is big enough to give you any service, but not too big to give you personal service.

If you are not now a patron we believe it will serve your best interests to become one, and we invite you to do so.

RAIL SHARES LEAD IN STOCK TRADE

Earlier Sharp Losses in Airplane Issues More Than Recovered in Late Trade—New York Central to New Top Price.

STOCK MARKET AVERAGES.
30 Industrials 200.41
20 Railroads 150.80
Week Ago 150.80
Year Ago 150.80
High, 1934 150.80
Low, 1934 150.80
Total stock sales 3,007,300 shares

By the Associated Press.
NEW YORK, May 9.—The stock market today was a two-sided affair, with the rails leading upward, and the industrials leading ground on selling inspired by uneasiness over the credit situation. Early declines of 1 to nearly 3 points in the industrials were materially reduced, and in a few cases converted into further sizeable gains.
The day's sales fell just short of the 4,000,000 share level, but the ticker was again behind the market during the greater part of the session. Stock exchange authorities found it necessary to declare another holiday on Saturday in order to give brokerage houses another opportunity to clear up the enormous accumulation of work that has developed during the past few weeks.
Cash money renewed at 6 per cent and held steady at that figure all day. Banks called about \$35,000,000 in loans during the morning, but a large volume of out-of-town funds was attracted here on the high day to date during the afternoon and loans were reported to be available in the "outside market" at 5 1/2 per cent. Time money rates were somewhat firmer, with short maturities on a flat 5 per cent basis.

Buying of Rails.
Fears that the New York Federal Reserve Bank would raise the rate of discount were met by a meeting of the directors, and that the weekly loan figures would show another large increase, tended to keep bullish enthusiasm in check, and undoubtedly caused a rather general lightning of accounts.

Today was the anniversary of the "Northern Pacific panic," which brought to a dramatic climax the great railroad "bull" movement of 1901.
Heavy accumulation of the railroad shares was accompanied by all sorts of dividend rumors. After the close of the market the directors of the Texas & Pacific inaugurated payments at the rate of \$5 annually. New York Central closed 191 for the first time in its history. Southern Pacific ran up more than 5 points to a new top at 121 1/4.

The rise in Wabash to a new peak of 95 1/4 was accompanied by a revival of reports that stockholders would receive a guaranteed dividend of \$2 a year. The Eastern consolidation program was carried out. Considerable uncertainty still exists as to just where the Wabash will be placed in the new railroad map.

Union Pacific Up.
Union Pacific advanced fractionally to 204 1/4, the highest price in about 15 years. Delaware & Hudson was heavy, presumably in reflection of speculative appointment over the failure of Loretto to indicate what disposal would be made of the \$62,000,000 received by the road for the Wabash and Lehigh Valley stock recently sold to the Pennsylvania.

Such recent industrial favorites as General Motors, Radio, General Electric, and International Harvester were under pressure most of the day. Rubbers turned heavy following H. S. Firestone's reported production of a cut in tire prices within three months. Coca Cola and Canada Dry Ginger Ale broke sharply on the termination of merger negotiations.
American Bank Note continued its sensational advance by climbing 24 points to a peak at 159, as against a low of 7 1/4 earlier in the year. Buryers Erie common and preferred, Curtiss Aeroplane and Motor, Loews and Howe Sound among the dozen or so industrials to climb into new high ground.

Break in Yen.
Another sharp break of nearly 50 points in Japanese yen to below 45.70 cents featured the foreign exchange market. European rates showed little change, with sterling cables quoted around \$4.88.

WINTER WHEAT CROP PUT AT 479,096,000 BUSHELS

By the Associated Press.
WASHINGTON, May 9.—Winter wheat production this year was forecast at 479,096,000 bushels by the Department of Agriculture today, having its figures on the production of the crop on May 1 and the estimated average remaining on that date to be harvested.

The acre of winter wheat on May 1 was about 35,535,000 acres, an increase of 125,000 acres over the acreage on May 1 last. The acreage on May 1 was 35,410,000 acres, an increase of 125,000 acres over the acreage on May 1 last. The acreage on May 1 was 35,410,000 acres, an increase of 125,000 acres over the acreage on May 1 last.

DAILY AVERAGE GROSS CRUDE OIL PRODUCTION INCREASED

NEW YORK, May 9.—The daily average gross crude oil production in the week ended May 5, 1934, was 2,460,000 barrels, the weekly average of the production of the week ended May 5, 1934, was 2,460,000 barrels, the weekly average of the production of the week ended May 5, 1934, was 2,460,000 barrels.

TURPENTINE, FLAX AND LINSEED.
Lined oil rose 1/4 to 11 1/2 for 103 1/2. Lined oil rose 1/4 to 11 1/2 for 103 1/2. Lined oil rose 1/4 to 11 1/2 for 103 1/2. Lined oil rose 1/4 to 11 1/2 for 103 1/2. Lined oil rose 1/4 to 11 1/2 for 103 1/2.

COTTON MARKET DOWN ON NEW YORK MARKET

By the Associated Press.
NEW YORK, May 9.—Early declines in the cotton market were followed by a recovery on reports of a heavy rain in the South. The market was not as strong as it appeared to be, however, and the outlook was not as bright as it seemed. Early trading was not as strong as it appeared to be, however, and the outlook was not as bright as it seemed.

THREE MISSING IN SMALL BOAT

Put Off From Steamer to Rescue Man Who Was Saved.

NORFOLK, Va., May 9.—The fate of three men, who yesterday put off from the American steamer Bethore in a small boat about three miles off Virginia Beach in an effort to rescue a shipmate who had been washed overboard by a

wave, was unknown here today. Last reports said the men were being tossed about in a northeast gale while the man overboard got near enough to the steamer to be pulled on deck.

The Bethore herself reported at one time that she was in need of assistance, but later said none was necessary. She is loaded with 11,000 tons of ore from Central America and is bound for Baltimore.

GRAINS CLOSE LOWER AFTER EARLY UPTURN

ST. LOUIS MERCHANTS' EXCHANGE.

May 9.—Wheat closed lower after an early upturn. Reported indication of probable change in weather in northwest was credited with bringing about reaction. There was evening up of trade for Government report, due after the close of market. Corn also finished lower.

Northwest dry weather complaints with report of dust storms in Dakota and Minnesota were credited with bringing early upturn as also comment on European crops being delayed by low temperatures. Liverpool came up on May 11th on July and July wheat were 4c up early. Corn was higher at opening and then sold not lower.

Liverpool wheat closed 4d higher on May 9, 4d on July and 1 1/4d on October. July wheat opened at \$1.05 1/2, Sept. \$1.05 1/2, July corn, \$1.13 1/2. Local wheat receipts, which were 85,000 bushels, compared with 60,000 a week ago and 30,000 a year ago, included 50 cars local and 10 through. Corn receipts, which were 84,000 bushels, compared with 140,000 a week ago and 47,000 a year ago, included 42 cars local and 15 through. Oats receipts, which were 80,000 bushels, compared with 40,000 a week ago and 62,000 a year ago, included 3 cars local and 1 through. Hay receipts were 7 cars local and 3 through.

St. Louis Cash Grain.

Sales of cash grain made on the exchange Wednesday were as follows:

Wheat: No. 2 red winter wheat, \$2.10; No. 3 red winter wheat, \$2.02; No. 1 Western red, \$1.90; No. 1 white, \$1.95; No. 2 soft white, \$2.00; No. 3 soft white, \$1.96; No. 1 hard, \$1.98; No. 2 hard, \$1.94; sample grade hard, \$1.98; No. 2 mixed, \$1.80; No. 3 mixed, \$1.75; No. 1, \$1.85.

Corn: No. 1 mixed, \$1.08 1/2; No. 2 mixed, \$1.08; No. 1 yellow, \$1.11; No. 2 yellow, \$1.10; No. 4 yellow, \$1.08; No. 5 yellow, \$1.07; No. 6 yellow, \$1.04; No. 1 white, \$1.08; No. 2 white, \$1.06; No. 3 white, \$1.07; No. 4 white, \$1.06; No. 5 white, \$1.04; No. 6 white, \$1.04. Oats: No. 3 white, 7c; sample grade white, 6c; No. 2 mixed, 7c.

NEW YORK MAYORALTY RACE OPENS ON 7-CENT FARE ISSUE

NEW YORK, May 9.—The 1923 Mayoralty campaign between Mayor James J. Walker and former Mayor John F. Hylan was under way today with the seven-cent transit fare as the issue. Hylan's campaign was launched formally at a dinner at the Waldorf-Astoria last night at which he again assailed the "interests" and reiterated his charges that Walker had been put into office by a politico-transit combine that had an agreement to increase fares.

Walker, who defeated Hylan at the last election, made a veiled reference to his political opponent in an address at a luncheon earlier in the day in honor of Prince Potemkin, Governor of Rome.

ZOO'S SEA ELEPHANTS ARRIVE

Two sea elephants, purchase of which for \$2,500 was announced some weeks ago, arrived at the zoo today from the Georgian Islands in the South Pacific.

They are almost twice as large as the sea lions, of which the zoo has several, and much rarer. They were placed in the pool recently prepared for them in the landscaped ravine below the reptile and primate houses and fed with a meal of 20 pounds of herring.

WHEAT FUTURES LOWER AT CLOSE IN CHICAGO

By the Associated Press.

CHICAGO, May 9.—Indications of showers in Canada and of somewhat unsettled weather this side of the international boundary tended to ease wheat values today at the last. Earlier, however, dust storms reported in the Dakotas and Minnesota as well as at some points in Canada did a good deal to make wheat prices average higher. Most of the day's

business in wheat was to readjust accounts so as to prepare for any surprise in the government crop report from Washington. Wheat closed weak, 1 1/2c to 2 1/2c net lower, corn 3/4c to 1c down, oats 1/2c to 3/4c up, and provisions unchanged to a setback of 1/2c.

Dry weather complaints from the American and Canadian Northwest, with dust storms in the Dakotas and Minnesota led to early higher prices today for wheat. There was also comment that low temperatures in Middle Europe are delaying crops. Oats were unchanged to 1c higher, wheat later scored upturns all-around. Corn was easy, starting 3/4c to 1c up, but afterward showing setbacks. Oats were for the last 12 years

firm. Provisions tended to sag. Aside from unfavorable weather in the spring wheat belt both south and north of the Canadian line, the buying side of the wheat market derived a distinct advantage much of the time today from reported belief that the government crop report due after the close would show a decline. Average unofficial forecasts were that the report would indicate a production of 472,000,000 bushels of winter wheat this season, compared with 452,000,000 bushels last year.

On the other hand, domestic primary stocks of wheat were reported as being practically double the average at this time for the last 12 years.

GRAINS, BIDS AND OFFERS

CHICAGO, May 9.—Grain bids and offers were as follows:

	Bids.	Offers.
May wheat	1.04 1/2	1.04 3/4

RUN-DOWN, EASILY UPSET AND IN CONSTANT PAIN

"I got very much run-down and suffered a lot of pain," says Mrs. Minnie Parson, 1409 Eighth Ave., North, Nashville, Tenn. "My back ached all the time with a dull pain. This went on for some time. My nerves got worse and worse. I was easily upset. The least little thing would set me off. I was hysterical. I worried a lot. It seemed like I could not get on my feet. I often thought if I could get started on the road to health I would be all right, but somehow I could not get started."

"I worried along, suffering and suffering, until one day it occurred to me that Cardui might be a good medicine to try."

"I began to take Cardui, hoping that it would help me, and, sure enough, I soon began to improve. Words cannot tell the good it did me. I felt like a different person. I got stronger and was able to do my work without help. I give Cardui all the credit."

"I took seven bottles, before I stopped. I gained in weight. My face filled out and my friends said I looked fine. My health has been good ever since." (K-51)

Take
CARDUI
50 YEARS
OF USE BY WOMEN
N.B.—For hygienic reasons, use CARDUI SEPTIC; 50¢ a box. All druggists.

Why, in spring, you feel "all in" — and what to do about it

Due to the accumulation of winter poisons, spring finds us with "jerky" nerves, logy bodies and dull minds. Indoor workers are the most frequent victims. They eat too much. Work too hard. Exercise too little.

The need of a scientific tonic at such a time is so definite that only the uninformed would do without it.

For the past 60 years, Fellows' Syrup has been accepted as a standard reconditioning aid. More than 110,000 physicians, in 47 countries, have prescribed it for rundown and nervous conditions.

During the War, the great French doctors called it "la grande benediction" meaning "the great blessing," noting how it helped restore health to weary, nerve-racked men.

It is folly to promise miracles for Fellows' Syrup, but most "under par" people can be benefited by the use of it. It is important, however, that you take it systematically for at least one month.

Within a few days, you will note a return of appetite. Shortly, you will be conscious of greater energy, and a freedom from fits of the "blues."

FELLOWS' SYRUP

The makers of FELLOWS' Syrup also manufacture FELLOWS' Laxative Tablets—safe and gentle, yet effective.

160,000 acres of DUNLOP cotton

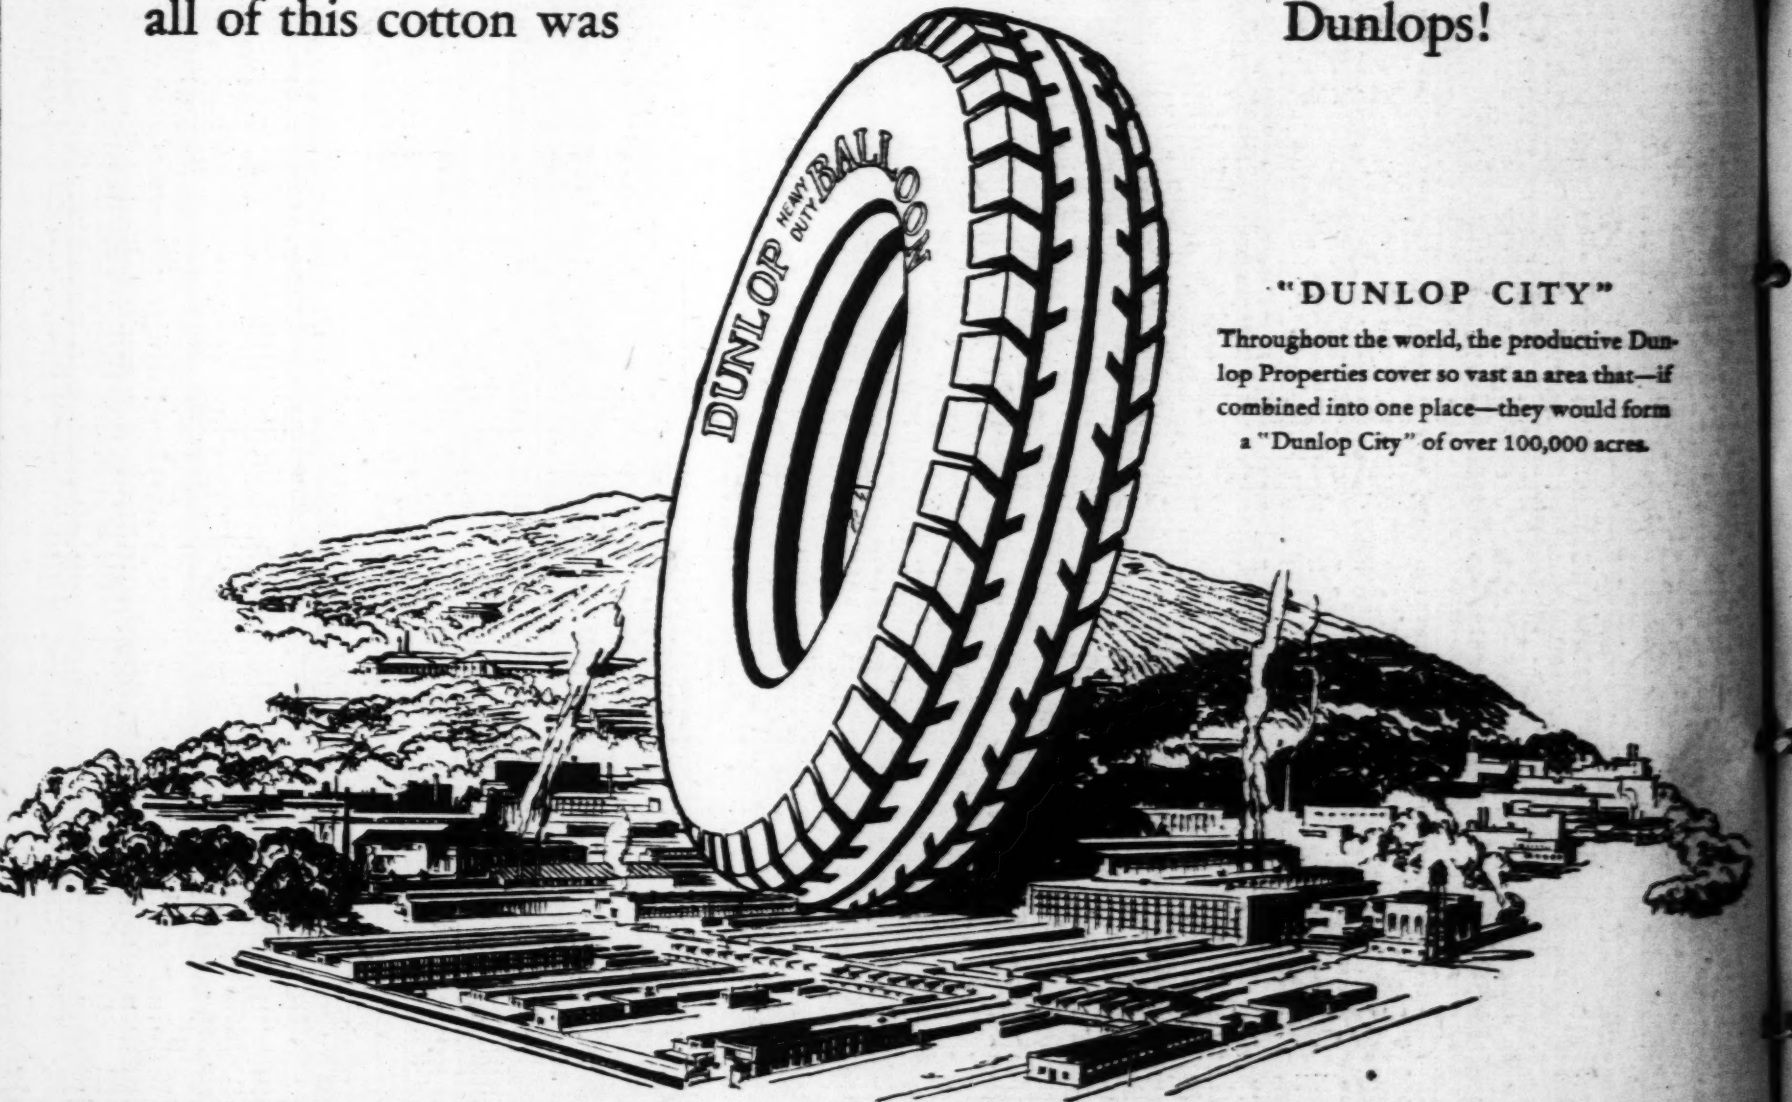

"WHAT OF IT?... Supposing Dunlop does require all the cotton from 160,000 acres. What does that mean to my pocketbook?"

Just this. Dunlop has grown great because Dunlops save money. Over 26,000,000 Dunlops are now in use—each one saving money for its owner.

Last year, Dunlop required the cotton from 160,000 acres, and all of this cotton was spun into cable-twist cord at Dunlop's own cotton mills.

Dunlops are better tires—with greater safety, greater tread mileage, and greater carcass strength. Otherwise they couldn't have justified their slightly higher initial cost. Yes... the 26 million Dunlops now in use are your guarantee that Dunlop must build only the best.

Save money—equip with Dunlops!

HUMAN BODY

A Frank Discussion Today of One of the Most Common of Minor Afflictions and a Rebuke for Health Faddists.

CONSTIPATION is the only other common derangement of the digestive system of which I have space to treat. After a meal the food should leave the stomach in six hours. Some of it begins to leave immediately, so that the remainder of a meal traverses the small intestine and reaches the caecum in from four to six hours. It gets to the hepatic flexure of the colon in six to eight hours, to the splenic flexure in nine to 12 hours, and to the sigmoid in 12 to 15 hours. Twenty-four hours after the meal is ingested, the food mass of that meal is usually ready of ejection.

The rectum under normal circumstances is always empty. A valve-like structure separates the rectum from the sigmoid, and the fecal mass stays just above this. The character of the inside of the bowel in the sigmoid region is different from that in the rectum. The rectum is better supplied with sensory nerves and transmits the sensation of fullness to the consciousness. With the pushing on of the next meal the fecal mass in the sigmoid is thrust into the rectum; its presence is made known to the brain in the desire to go to stool. This call to stool is most likely to occur after breakfast, because during the night the food mass has accumulated in the sigmoid and the first meal starts a gentle peristalsis of the entire bowel, which, reaching the sigmoid, propels the fecal mass into the rectum. In some people this movement is sluggish and insufficient to thrust the fecal mass into the rectum every day.

It may have to accumulate two or three days, until its bulk is sufficient to stimulate peristaltic action enough to move it into the rectum. It does no harm whatever remaining in the sigmoid, as absorption from the sigmoid into the blood-stream is almost nil. There is no law of nature stating that the bowel must be evacuated every 24 hours. Individuals vary in this. When the head of the fecal mass enters the rectum, the call to stool lasts only a short time. If disregarded, the feces again recede into the sigmoid. While in the rectum, they can be evacuated by the voluntary effort of the individual—the exertion of pressure by the abdominal muscles and the pushing down of the diaphragm. When they are in the sigmoid alone, no amount of straining will move them. Defecation should employ not only the rectum, but also the sigmoid, and sometimes part of the descending colon.

The entire process being somewhat complicated, it may become disordered at any one of several points. The bowel in certain individuals may be more sluggish than in others, and the fecal mass move more slowly. The sensitivity of the rectum may be diminished in some, or dulled by dyspepsia. Rectal diseases, such as hemorrhoids (piles), or fissures, may cause rectal spasm and keep the fecal mass from entering the rectum.

Constipation is the favorite topic of amateur health-faddists and amateur doctors. The average person takes on lurid aspects and becomes veritably the root of all evil. I quote in evidence from one of the voluminous treatises of Alfred W. McCann (The Science of Keeping Young): "We must at will the indescribable depression begotten by the retention of fatigue poisons in auto-intoxication." Books on purifying the colon, and preserving health through keeping the bowel in order, and intestinal gardening, crowd book-sellers' stalls. One of the most insidious of these monographs is entitled The Lazy Colon, by Charles M. Campbell and Albert K. Derwiler, M. D. It is advertised in the Literary Digest for June 5, 1935, with a recommendation in letter form from Judge R. H. Gary. The Judge's photograph is reproduced in order to give point to the laudation. He is reclining his head upon his hand in the attitude universally recognized the world over as that assumed during the act of deep thought. It is a perfectly logical assumption that a man who has made a success of the stool business is a good critic of a technical problem in biological chemistry. Therefore the Judge's praise of a book which promises to throw a new light on good complexion, baldness (the Judge's photograph unfortunately shows him perfectly bald, but presumably he did not get the book in time), longevity, bad teeth, and self-poisoning has great point. Patients are easily infected with the doctrine. They tell me: "Constipation had added 10 years to my life," or "All my melancholy and continuous fatigue are due to constipation." Sir Arbuthnot Lane, a London surgeon, some years ago wrote treatises to show that constipation is the cause of neurasthenia, exophthalmia, goiter, ulcer of the stomach, cancer of the breast, tuberculosis, and I do not know what all besides. He thought everyone should have his colon out. He did not have his own colon out because he said he had a very good colon, or something of that sort. Many physicians thoroughly believe this doctrine, that constipation is the root of all evil.

My own experience has been entirely at variance with all this.

Most of the people whom I have examined carefully who say they have constipation are not constipated at all. The experience is becoming quite monotonous. A patient presents himself to be treated for constipation. The examination is conducted in this manner: The patient is given an opaque meal so that its course can be timed through the gastro-intestinal tract. It is swallowed, say, at 10 a. m. on Monday. At 4 p. m. the patient is seen again. The meal is noted to have left the stomach and to be in the intestine. The patient is cautioned not to use any cathartic that night, so that the natural rate of the meal can be timed, and to appear the next day at noon. At that time the meal is seen to be in the caecum and transverse colon. The patient is again warned not to use a cathartic and to appear on the third day. At this time no shadow is seen in the intestines at all and the following conversation takes place: "Did your bowels move this morning?" Answer, in a tone of the greatest astonishment: "Why, yes, I had the first natural bowel-movement I've had for years."

The patient had been taking cathartics regularly for years and had never waited to see if the bowels would move naturally without them. The cathartics had kept the inside of the bowel irritated and the sense of fullness, which is the only sensation the mucosa of the intestine can convey to the brain, had made him feel that the bowels were never completely empty. The cause of the constipation was the use of cathartics. There are some actual cases of constipation, but usually it is a neurosis—a pattern idea of disease, deeply fixed in the mind of childhood. Consider the child's mental attitude toward the evacuation of his bowels. He is enjoined from the very earliest time he can remember that the act must be performed daily. He is always scolded if the bowels do not move, he is always praised if they do. If he is sick, no matter if he has measles or a cold, the first treatment is directed to opening the bowels. No wonder the thing assumes a central importance in his mind. No wonder, if in after life anything goes wrong, the first thought is directed toward the bowels. No wonder, if on the fatal day they fail to move, a sense of some terrible doom becomes imminent. And then the whole theory seems so reasonable. The bowel-movements have a dreadful odor, due to stasis and indolence; they thoroughly disgust him. They must be just reeking with poisonous matter. If that is cooped up inside the body, and absorbed into the blood, it will simply overwhelm a person with venemous matter.

Of course the fact that absorption of such material or any other material, except water, from the large bowel hardly occurs at all, that no matter how often or thoroughly the bowel is flushed out, there is always some of this poisonous-appearing material in it; that after all, noxious as it may appear superficially, fecal matter is not very toxic, and that the body has through long ages adapted itself so that such material in the bowel will do it no harm, is lost sight of in the mad ride of the hobby once it is mounted. All the symptoms these people have can be explained on the basis of introspection. My friend Alvarez, for instance, formerly of San Francisco, now of the Mayo Clinic, found that he could produce the headache which is always claimed to be relieved by a bowel movement and considered certainly to be due to absorption, by stuffing cotton into human rectums. Your bowels, like the universe, will get along very well if you leave them alone. They will adjust themselves to the shabby they inhabit and the kind of food it eats.

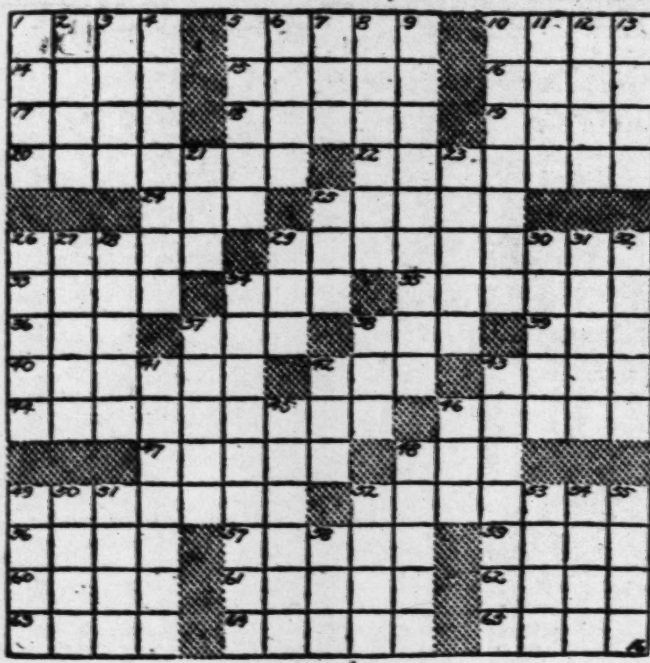

Just as constipation is the disease of amateur healers, so are cathartics their special drugs. They appeal partly because, unopposed action can be so exactly measured. They have been known and used since the earliest times. They assisted the worship of God in the healing temples of the Egyptians and Babylonians. Plutarch mentions them.

There was a formal Roman custom of purging and vomiting before sitting down to a banquet. The best furnished the cathartics and the emetics. Whether they assisted the expansion of the soul as much as a dry Martini I cannot say.

Lace Trims the Kerchief. The diaphanous lace-trimmed square that used to pose as a practical handkerchief is again in popular favor. Whether in the sheerest of linen, georgette, chiffon or crepe, the small white square is edged with Chantilly lace, point d'esprit, novelty Val or Binche lace. Occasionally hand embroidery is used for a bit of color.

Hy-Grade Ice Cream. Pure fruit cream—pure fruit juice—pure cream sugar. No finer ice cream made anywhere. Get some at your neighborhood drug store or at Hy-Grade, 277 Locust St., St. Louis, Mo. 450-4800. Purely made.

Climb Down!

Here's a nice clean way of handling a household problem. Climb down from Ash a rung at a time finding a new word that differs from its predecessor by a single letter only. Remember not to transpose the remaining letters and without using unusual words see if you can better our solution, which will appear tomorrow, by eliminating a rung or two. Answer to Whip-Pops: 1. Whip; 2. Whiff; 3. Whiff; 4. Whiff; 5. Whiff; 6. Whiff; 7. Whiff; 8. Whiff; 9. Whiff; 10. Whiff; 11. Whiff; 12. Whiff; 13. Whiff; 14. Whiff; 15. Whiff; 16. Whiff; 17. Whiff; 18. Whiff; 19. Whiff; 20. Whiff; 21. Whiff; 22. Whiff; 23. Whiff; 24. Whiff; 25. Whiff; 26. Whiff; 27. Whiff; 28. Whiff; 29. Whiff; 30. Whiff; 31. Whiff; 32. Whiff; 33. Whiff; 34. Whiff; 35. Whiff; 36. Whiff; 37. Whiff; 38. Whiff; 39. Whiff; 40. Whiff; 41. Whiff; 42. Whiff; 43. Whiff; 44. Whiff; 45. Whiff; 46. Whiff; 47. Whiff; 48. Whiff; 49. Whiff; 50. Whiff; 51. Whiff; 52. Whiff; 53. Whiff; 54. Whiff; 55. Whiff; 56. Whiff; 57. Whiff; 58. Whiff; 59. Whiff; 60. Whiff; 61. Whiff; 62. Whiff; 63. Whiff; 64. Whiff; 65. Whiff; 66. Whiff; 67. Whiff; 68. Whiff; 69. Whiff; 70. Whiff; 71. Whiff; 72. Whiff; 73. Whiff; 74. ACHIEVE, KEEP TRYING

FASHION TREND TOWARD GREATER VARIETY AND FEMININITY, SAYS MME. CHARLOTTE

First Aid for the Injured

Dress Frills Banned

By Lucy Lowell.

It is a whole sermon in a paragraph—one of those which Herbert Hubbard preached and us for direction of our lives.

It is only the power of continuous efforts. The difference between failure and success is that we scarcely know when it is; so fine that we are in the line and do not know.

Many a man has thrown his hands at a time when a little more would have achieved what he would have achieved.

As the tide goes clear it comes clear in.

Business sometimes prospers in the darkest when really they are the turn. A little more effort, a little more effort, and the hopeless failure may be a successful success. There is no exception in no longer trying, there is no defeat except this, no really insurmountable barrier save our own inherent sense of purpose.

I like best about this element, "There is no failure in no longer trying."

Not as a matter of fact, but as a matter of fact, to accomplish or fail to accomplish which determines your success is not even in external, actually, but in the mind; some progress, some feeling which will you to say, "I am ahead of this at this time a year ago."

It is something established by the fact that you reached a goal—for a goal, may not be particularly, but by the fact that you up an ideal and that in obstacles and discouragements of all sorts you are trying—you have a little nearer it than you first it was erected in sight.

Most yellow-bellies are much at now. It is often comely brown, and is really the brunettes.

Designer Expects Skirts to Be Longer but They Will Be "Camouflaged" by Transparency.

By MME. CHARLOTTE

Director and Designer of Prémét's PARIS.

BECAUSE the Parisienne loves change, I think we shall see the new silhouette definitely established this season with puffed hips, a bow on one side, a flounce here, a flounce there—a great many flounces, and—always—much longer skirts. But length alone will be camouflaged by transparency. This is the age of the supremacy of the leg. Women appreciate the chic of showing the ankles—and a great deal more. The long and the short is at the moment. That has come to stay for a season or two. But the leg will be shown in front. It may be half hidden by transparent veils of chiffon or tulle. It may be half hidden by floating panels, or shown in front, but the two will have an effect for women light to give it up.

The match-stick silhouette is, however, completely out of date for the evening. A woman who appears in a straight sheath gown with the hem even all round looks absolutely out of the picture. What I call monotonous fashions are as dead as mutton. The whole trend is toward greater variety, caprice, femininity.

Naturally, these fashions are more difficult to choose. Every-day is a new problem. When you only had a series of straight simple frocks from which to select your wardrobe, it was not a matter of any great importance whether you chose this or that. Now that there are half a dozen effects, all equally smart, women have to use their brains. Choice means a careful trying on of 10 or 15 models in a fitting room. They must be studied from every point of view. The profile of the figure has become as important as the front. Your oval dip, or your slanting point, the skirt must have the right slope. A couple of inches this way or that may mean the difference between success and disaster.

THINK this is a very good thing. Clothes really play such an important part in a woman's life that they ought to be chosen with care. Women have ceased to be uniformed crowd and have once more taken on individuality and personality. It is possible to recognize them again. They no longer sink into an indistinguishable mass. We are returning to the standards of dress. The Parisienne is undoubtedly returning to her former elegance and grace. She no longer wears what she comes to be known as "sports frocks" except at the seaside, although she still dresses very simply in the morning. But it is the Parisian simplicity with a host of subtle nuances making it very different from the monotonous uniform of a few seasons past.

The ensemble of dress and coat has taken the place of the jumper and skirt. The most popular coat is that which entirely covers the dress. Sometimes we make three-quarter length coats for the summer, but these are always of the same material and the same color, matching the principal color of the dress or of a printed dress. One of the former is shown in an illustration on this page. It is a small printed foulard on the skirt that is repeated at the hem of the semi-three-quarter-length coat. It is quite charming for a summer race meeting, and delightfully feminine, as its flounces give great character to the slim silhouette.

NOTHER frock in my collection is made of beige crepe de chine printed in one of the fashionable tiny designs in dark flounces. They take an upward turn in front that gives variety to the silhouette. With this dress is worn a long coat in plain red silk that is lined with foulard to match the gown. Such an ensemble is perfectly useful, for you may ring the changes by having a plain red frock, trimmed with printed fabric to match the coat lining, and thus make an individual coat serve for two ensembles.

We are making capes this season, but I do not anticipate their becoming general. Capes are not, frankly, sufficiently practical for the present age, and fanciful though we may like to be, fashion is really dominated by practical considerations.

The summer is the season when the afternoon gown comes into its own. It will be less varied and more individual in outline than the evening gown, but will show more variety than the afternoon gowns worn in the winter. This is only logical, because the summer offers so many occasions when a charming afternoon gown may be worn with pleasure. There are race meetings, polo matches, garden parties, and a hundred and one opportunities for a woman to take pleasure in wearing a pretty afternoon gown.

When the mid-season arrives, I shall make many ensembles of silk and wool. Most of these will have coats covering the dresses, and these coats will be lined with fur. There will be some short coats, but no capes. They will be what the French call habille, without any exaggerated elab-

For summer at the seaside nothing could be smarter than this little sports suit of pale blue tainage with a sleeveless cardigan jacket. The sweater is of fine blue angora jersey with diagonal incrustations of beige.

Plain and printed crepe de chine are used for this frock in lavender, blue and black. The collar is bordered with black satin and the two materials are cleverly combined on corsage and skirt. A large printed scarf is worn.

A smart afternoon dress of dark red silk armure trimmed with rows of fine, fine braid in the same color. The sleeves widen at the wrist and the hem is cut in deep scallops and dips slightly at the back.

For the summer races Mme. Charlotte has designed this ensemble of three-quarter length coat and dress in small patterned foulard. Its characteristic is the mass of gay little frills at the hem of both garments.

breathing normally of his own volition and then moved only in a lying position. Should it be necessary to move the patient before he is breathing normally, resuscitation should be carried on during the time that he is being moved. A brief return of natural respiration is not a certain indication for stopping the resuscitation. Not infrequently the patient, after a temporary recovery of respiration, stops breathing again. The patient must be watched and if natural breathing stops, artificial respiration should be resumed at once.

(i) In carrying out resuscitation it may be necessary to change the operator. This change must be made without losing the rhythm of respiration. By this procedure no confusion of minds at the time of change of operator and a regular rhythm is kept up.

DISLOCATIONS AND FRACTURES.

The fourth principle relates to dislocations and fractures of bones, which are treated by immobilization in a comfortable position, and a natural one if practicable, care being taken not to move the injured part unnecessarily. Well-padded splints are held in place by cravat bandages.

Fifth, burns are treated, after removal of the clothing, by use of sterile or sterile picric acid gauze and an outer dressing, as a triangular bandage, to hold the gauze in place and exclude the air. The exclusion of air is important. Precautions of cleanliness should be observed as stated for open wounds.

SIXTH, shock, or vital depression, which accompanies all injuries to some degree, is treated by keeping the patient lying down at rest; keeping him warm by covering him with blankets or clothing, using hot-water bottles, hot bricks, or similar means, aiding circulation by rubbing the extremities toward the heart, but not away from it; and by the use of common stimulants, as hot coffee or aromatic spirits of ammonia.

TRANSPORTATION.

Seventh, transportation may be necessary to get an injured man to a place of safety, or to a more comfortable location, or to get him to a hospital and a physician. The methods vary with conditions, but the principle of transporting him

THINK this is a very good thing. Clothes really play such an important part in a woman's life that they ought to be chosen with care. Women have ceased to be uniformed crowd and have once more taken on individuality and personality. It is possible to recognize them again. They no longer sink into an indistinguishable mass. We are returning to the standards of dress. The Parisienne is undoubtedly returning to her former elegance and grace. She no longer wears what she comes to be known as "sports frocks" except at the seaside, although she still dresses very simply in the morning. But it is the Parisian simplicity with a host of subtle nuances making it very different from the monotonous uniform of a few seasons past.

Americans Are Buying German Toy Soldiers

AMERICAN children have evidently regained their taste for toy soldiers and toy battle scenes, for these have been largely bought by American department stores at the Leipzig Fair. The usual run of lead or tin soldiers is not so popular. It is a fairly large size model made of a new unbreakable composition that is all the rage.

In Germany there is no great demand for tin soldiers nowadays, and their places are taken by model football and hockey teams.

Helping the School Child

By Emilie Hoffman

IT seems hard for some mothers to realize that a teacher has the right to discipline their children. In one school the teacher gave a command to a pupil which was unheeded. When asked why he did not obey, the lad coolly replied, "I don't have to." When the teacher inquired, "Why not?" he replied, "My mother says you have no right to boss me. That is the business of my parents."

Naturally the teacher was astounded, and it does seem strange that any mother would take this attitude toward the school to which she intrusts the education of her child. On the other hand this lad may have a misconception of some remark made by his mother. Nevertheless, the evil effect is apparent.

Of course this is an extreme case, but teachers are continually experiencing similar situations, and one of the greatest handicaps in their labors is the failure of parental co-operation in the discipline of pupils. Nowhere should there be greater harmony between the school and the home, than in discipline, for progress is retarded when authority is questioned.

In homes where respect for authority has been rightly established parents realize that during the time their children are in school the teacher's authority is supreme. Under no consideration would a good parent question this. The children trained in such a home just naturally are subservient to school discipline and their school life runs along pleasantly.

The intelligent mother respects the teacher's authority and would never demand a favor or special privilege for her children on terms of priority. She realizes the school hours are not hers to dispose of, so she asks the favor as a request, but she will always submit her request to the teacher's judgment. For instance, if the mother desires

A DISH FOR TODAY

Sponge Layer Cake.

BEAK one dozen eggs into a yellow mixing bowl without separating them, and add to them two cups of sifted powdered sugar; set the bowl in a pan of water at boiling point and beat with an egg beater for a half hour steadily. The water in the pan must be kept at boiling point. Remove from the fire and stir in juice of a lemon and one cupful of sifted flour, pour into three buttered layer pans and bake 10 minutes, try with a splint, invert the pans to cool, then tap up the cake with a soft lemon frosting.

ARM water, then with cold, gently. Gently pat the using a soft towel, then of cold cream, that is all's way. But don't ignore can't cheat where a good is concerned.

Italian Girl Fighter Of 1848 Dies at 97

IN the forefront of the patriotic mob that chased the Austrian tyrants out of Bologna back in 1848 was a lanky, overgrown girl of 17, remarked even above the men for her courage and zeal. Her pistols flying, the ardent young tomboy kept after the retreating "white-coats" using whatever weapon came to hand. Then, order restored, she returned to her work in the mill where she was employed.

"Donna" Gertrude Lolli, the pig-tailed patriot of four score years, died the other day at the age of 97. She married soon after the rout of the Austrians, and presented her husband and her country with 11 children. The family was poor, and for 10 years "Donna" Gertrude worked away in a tobacco factory. But that did not prevent her from looking after the welfare of others' children as well as her own.

The extraordinary old lady founded a society for factory girls, still in a flourishing condition. Later, in connection with that organization, she founded an industrial school for poor children, naming it in honor of the late Queen Marguerite. She was presented to the Queen and King Humbert when they visited Bologna 40 years ago, and when King Victor Emmanuel III and Queen Elena came here in 1921 they sent for her. "A real combatant of '48," she was styled by the King.

oration. This is because by the time they appear, women will be thinking of their wardrobes for Deauville and Biarritz, and the keynote of seaside fashions is always simplicity.

Helping the School Child

By Emilie Hoffman

IT seems hard for some mothers to realize that a teacher has the right to discipline their children. In one school the teacher gave a command to a pupil which was unheeded. When asked why he did not obey, the lad coolly replied, "I don't have to." When the teacher inquired, "Why not?" he replied, "My mother says you have no right to boss me. That is the business of my parents."

Naturally the teacher was astounded, and it does seem strange that any mother would take this attitude toward the school to which she intrusts the education of her child. On the other hand this lad may have a misconception of some remark made by his mother. Nevertheless, the evil effect is apparent.

Of course this is an extreme case, but teachers are continually experiencing similar situations, and one of the greatest handicaps in their labors is the failure of parental co-operation in the discipline of pupils. Nowhere should there be greater harmony between the school and the home, than in discipline, for progress is retarded when authority is questioned.

In homes where respect for authority has been rightly established parents realize that during the time their children are in school the teacher's authority is supreme. Under no consideration would a good parent question this. The children trained in such a home just naturally are subservient to school discipline and their school life runs along pleasantly.

The intelligent mother respects the teacher's authority and would never demand a favor or special privilege for her children on terms of priority. She realizes the school hours are not hers to dispose of, so she asks the favor as a request, but she will always submit her request to the teacher's judgment. For instance, if the mother desires

Beauty's New Alphabet

BEAUTY that not only enhances the texture and coloring of your face, but actually achieves an improvement in the appearance of its shape—that is the Beauty you may enjoy, with the correct use of Melba Lov'me Toiletries!

A—When a face is broad, the application of Melba Lov'me Rouge near the nose—shaded upward to the temple—makes the face look longer!

Or—if your face is narrow and longer than beauty demands—you can make it look rounder by applying Melba Lov'me Rouge well back on the cheeks, and along the jawbones!

B—The smartest women match their Melba Lov'me Rouge with their Melba Lov'me Lipstick—for natural beauty. If you spread your lips—when applying the lipstick—you will get a lovely, even color that outlasts Nature's own!

C—A flattering film is Melba Lov'me Face Powder. It ties together the flush of cheeks and tint of lips, and endows your skin with a velvety-smooth quality.

Your favorite store can supply Melba Toiletries.

Madame de Bernard's Scientific Institute of Rejuvenation

Friendly Advice:

Soap and water destroy your skin and cause wrinkles.

Build the muscles and cleanse the skin with

"BELLE HELENA" IN THE MORNING

"BAHAMA OIL" IN THE EVENING
